RE: Humboldt Municipal Gas Utilities

PS: 15-001

Dear Ms. Edwards:

The Humboldt Natural Gas Board (hereinafter "Gas Board") has voted on the following actions to remedy the remaining outstanding issues raised by the above-referenced matter.

The Gas Board will have 3 individuals dedicated to the natural gas system. Daryl Sieverding will continue his current capacity in servicing the natural gas system. The Gas Board will hire another permanent part time person on or before January 1st 2016 dedicated solely to assisting the City Natural Gas Manager. The Gas Board will also have one if its members available at all times as back-up for the system.

In the Interim, waiting to find a qualified permanent part time employee in addition to Daryl Sieverding, the Gas Board will have a minimum of two of its members get qualified and assist and with safety, paperwork and back up.

The Gas Board's goal is to ensure optimal safety for the town of Humboldt and to be in compliance with training and to ensure back up, including, but not limited to emergency plan procedures and qualifications.

Sincerely,

Humboldt Gas Board
