20:10:27:01. Definitions. Terms defined in SDCL 49-31-1 have the same meaning when used in this chapter. In addition, terms used in this chapter mean:

(1) "Association," a voluntary telecommunications company association formed by individual telecommunications companies for the purpose of jointly filing and administering a common or uniform switched access tariff;

(2) "Carrier's carrier," a telecommunications company which provides switched access services or facilities to another telecommunications company which in turn uses those services or facilities to provide telecommunications services to the public;

(3) "Competitive local exchange carrier," a telecommunications company that provides local exchange services in an area in which an incumbent local exchange carrier also provides local exchange services;

(4) "Competitive local exchange services," local exchange services that are provided by a competitive local exchange carrier within a competitive service area;

(5) "Competitive service area," a local exchange area within which both an incumbent local exchange carrier and a competitive local exchange carrier provide local exchange services;

~~(3)~~ (6) "Feature group A," a line side termination at the first point of switching;

~~(4)~~ (7) "Feature group B," a trunk side switching through the use of end office or access tandem switch trunk equipment;

~~(5)~~ (8) "Feature group D," an access service providing 1+ equal access;

(9) "Generally accepted accounting principles," a widely accepted set of rules, conventions, standards, and procedures for reporting financial information, as established by the Financial Accounting Standards Board;

~~(6)~~ (10) "Switched access," a telecommunications service which provides part or all of a communications path between the customer of the service and its end user which utilizes subscriber loop, transport, and switching functions;

~~(7)~~ (11) "Uniform system of accounts for telecommunications companies," a historical financial accounting system, codified at 47 C.F.R. Part 32 (October 1, 1991), prescribed by the federal communications commission, which reports the results of operational and financial events of a telecommunications company in a manner which enables both management and regulators to assess these results within a specified accounting period.

20:10:27:02. Determination of intrastate switched access charges for incumbent local exchange carriers -- General Waiver or suspension of rule.

Chapters 20:10:27 to 20:10:29, inclusive, establish rules for the determination of switched access charges for intrastate switched access services provided by each carrier's incumbent

local exchange carrier operating in this state. Charges for switched access services provided by incumbent local exchange carriers shall be computed, assessed, and collected as provided in chapters 20:10:27 to 20:10:29, inclusive, except as provided in §§ 20:10:27:02.01, 20:10:27:02.02, and 20:10:27:11 to 20:10:27:13, inclusive.

For good cause, the commission may, on its own motion or by application from a carrier's carrier, temporarily waive or suspend any commission rule in chapters 20:10:27 to 20:10:29, inclusive.

Law Implemented: SDCL 49-31-18.

20:10:27:02.01. Determination of intrastate switched access charges for competitive local exchange carriers. A competitive local exchange carrier shall charge intrastate switched access rates that do not exceed the intrastate switched access rate of the Regional Bell Operating Company operating in the state.

20:10:27:02.02. Exception for determination of switched access rates of competitive local exchange carriers. If a competitive local exchange carrier believes that a higher rate than the rate allowed under § 20:10:27:02.01 is justified under price regulation, the carrier may file a cost study in accordance with chapters 20:10:27 to

20:10:29 to determine its fully allocated cost of providing switched access services. In addition to considering the fully allocated cost of providing switched access services, the commission shall consider the other factors in SDCL 49-31-1.4 in its determination of the competitive local exchange carrier's price for switched access services.

20:10:27:04. Uniform system of accounts used for classification – Petition to use generally accepted accounting principles. Each carrier's carrier shall classify its accounts of telecommunications property, revenues, and expenses as set forth in chapters 20:10:27 to 20:10:29, inclusive, by the method prescribed by the federal communications commission's uniform system of accounts for telecommunications companies in 47 C.F.R. Part 32 (October 1, 1991), except as provided in §§ 20:10:27:11 to 20:10:27:13, inclusive.

A carrier's carrier may petition the commission to use generally accepted accounting principles instead of the uniform system of accounts. The commission shall grant the petition if the carrier's carrier demonstrates that its use of the uniform system of accounts is unduly burdensome and that it is able to map its accounts to substantially reproduce the process and end result produced by the uniform system of accounts.

20:10:27:07. Filing of intrastate switched access service tariff. Each carrier's carrier or association shall file an initial tariff for switched access service with the commission. Each carrier's carrier or association that used a cost study in its calculation of its rates shall file cost data in support of its switched access service tariff no less than once every three years. Each carrier's carrier or association may file for a rate change in accordance with SDCL 49-31-12.2 to 49-31-12.4, inclusive. The commission may change or revise any switched access rate or price in accordance with SDCL 49-31-12 and 49-31-12.4.

20:10:27:11. Petition to commission by an incumbent local exchange carrier for exemption from developing company-specific cost-based switched access rates. ~~A telecommunications company~~ An incumbent local exchange carrier may petition the commission to be exempted from the requirements of developing intrastate switched access rates based on company-specific costs. The burden of proof is on the company to show that it lacks the necessary financial, technical, or managerial resources needed to determine company-specific cost-based intrastate switched access rates or that the additional costs associated with developing company-specific cost-based intrastate switched access rates outweigh any benefit to the consumer or customer.

Law Implemented: SDCL 49-31-18.

20:10:27:12. Determination of switched access rates for a company an incumbent local exchange carrier granted an exemption from developing company-specific cost-based switched access rates. The intrastate switched access rates of a telecommunications company an incumbent local exchange carrier which is granted its petition for an exemption pursuant to § 20:10:27:11 are based on the costs of all the telecommunications companies with less than 100,000 access lines that determine switched access costs pursuant to chapters 20:10:28 and 20:10:29. Switched access rates for companies incumbent local exchange carriers exempted pursuant to § 20:10:27:11 are calculated by dividing the sum of switched access revenue requirements for cost companies with less than 100,000 access lines for intraLATA and interLATA intrastate switched access traffic by the sum of switched access minutes for those same cost companies for intraLATA and interLATA intrastate switched access traffic.
