IN THE MATTER OF THE REQUEST OF
STOCKHOLM-STRANDBURG TELEPHONE CO.
FOR CERTIFICATION REGARDING ITS
USE OF FEDERAL UNIVERSAL
SERVICE SUPPORT

DOCKET NO. ____

REQUEST FOR CERTIFICATION

Stockholm-Strandburg Telephone Co. by and through its attorney hereby submits a Request for Certification to the South Dakota Public Utilities Commission ("Commission") seeking certification from the Commission pursuant to 47 C.F.R. § 54.314. In support of this Request, *Stockholm-Strandburg Telephone Co.* offers the following:

1. On May 23, 2001, the Federal Communications Commission (FCC) released an Order relative to the federal universal service support mechanism for rural carriers.¹ This Order (hereafter referenced as the "Fourteenth Report and Order"), in part, codifies at 47 C.F.R. § 54.314, a requirement for States to provide a certification regarding federal universal service support that is received by rural incumbent local exchange carriers and/or other eligible telecommunications carriers providing service in rural service areas. Pursuant to such rule, states that desire rural carriers within their jurisdiction to receive future federal universal service support must file an annual certification with the FCC and the Universal Service Administrative Company ("USAC") stating that federal high cost support provided to such carriers within that State will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. This certification requirement applies to various categories of federal universal service support, including support provided pursuant to 47 C.F.R. §§ 54.301,

¹ CC Docket No. 96-45, CC Docket No. 00-256, Fourteenth Report and Order, Twenty Second Order on Reconsideration, and Further Notice of Proposed Rulemaking in CC Docket No. 96-45, and Report and Order in CC Docket No. 00-256, FCC 01-157, Released May 23, 2001.

54.305, and/or 54.307, and/or 47 C.F.R. Part 36, Subpart F (high-cost loop support, local switching support, safety net additive support, and safety valve support). Support provided under these FCC rule provisions will only in the future be made available if the State Commission files the requisite certification pursuant to § 54.314.

2. The certification required for rural carriers to receive federal universal service support for all four quarters during calendar year 2002 is currently due to be filed with the FCC and USAC on or before October 1, 2001. The certification may be presented to these entities in the form of a letter from the State Commission. The letter must identify which carriers in the State are eligible to receive federal support during the 12-month period and must certify that the carriers listed will only use the support for the provision, maintenance, and upgrading of facilities and services for which the support is intended.

3. *Stockholm-Strandburg Telephone Co.* is a rural telephone company that has previously been designated by this Commission as an eligible telecommunications carrier. The Company provides local exchange telephone services, including all of the essential services that are included in the federal definition of universal service, to approximately 753 access lines within its established rural service area in South Dakota.

4. This Commission has limited regulatory oversight over *Stockholm-Strandburg Telephone Co.* and its provisioning of local exchange services. Under SDCL § 49-31-5.1, the local exchange service rates charged by telecommunications cooperatives, municipal telephone systems, and independent telephone companies serving less than fifty thousand local exchange subscribers are not subject to the Commission's ratemaking authority. In cases where State Commissions have limited regulatory authority over rural carriers, the FCC has indicated that these carriers should themselves initiate the certification process by presenting a plan to ensure

compliance with the requirement in 47 U.S.C. § 254(e) that universal service support will only be used for the provision, maintenance, and upgrading of facilities and services for which the support is intended. Based on this filed plan, it is anticipated that the State Commission may make the appropriate certification to the FCC.²

5. The purpose of this filing is to provide information constituting *Stockholm-Strandburg Telephone Co.*'s plan for the use of its federal universal service support and to otherwise verify that *Stockholm-Strandburg Telephone Co.* will use all federal universal service support received in a manner that is consistent with the federal universal service provisions of 47 U.S.C. § 254.

6. In the process of determining whether federal universal service support is used in a manner consistent with the Federal Communications Act, the “universal service principles” established in Section 254(b) are instructive. That Section states that the FCC shall base “policies for the preservation and advancement of universal service” on certain, specifically identified principles:

- (1) Quality services should be available at just, reasonable, and affordable rates.
- (2) Access to advanced telecommunications and information services should be provided in all regions of the Nation.
- (3) Consumers in all regions of the Nation, including low-income consumers and those in rural, insular, and high-cost areas, should have access to telecommunications and information services, including interexchange services and advanced telecommunications and information services, that are reasonably comparable to those services provided in urban areas and that are available at rates that are reasonably comparable to rates charged for similar services in urban areas. . . .
- (6) Elementary and secondary schools and classrooms, health care providers, and libraries should have access to [certain] advanced telecommunications services. . .

² Fourteenth Report and Order, ¶ 188.

7. The FCC has declined to dictate specifically how the states should ensure that carriers are using federal universal service support consistent with the federal law, but has offered examples of how the support can be used to appropriately further universal service goals. The FCC has stated:

[A] state could [use the federal support to] adjust intrastate rates, or otherwise direct carriers to use the federal support to replace implicit intrastate universal service support to high cost rural areas . . .

A state could also require carriers to use the federal support to upgrade facilities in rural areas to ensure that services provided in those areas are reasonably comparable to services provided in urban areas of the state.³

8. The FCC provided the above examples as illustrative and not exhaustive examples of how support can be used consistent with Section 254(e). Other uses are appropriate provided the State Commission believes they are consistent with the federal universal service principles contained in Section 254.

9. *Stockholm-Strandburg Telephone Co.* as a designated eligible telecommunications carrier has received federal universal service support in the past and expects to receive support during calendar year 2002. As of this time, specific support amounts the Company should receive in 2002 have not yet been identified by USAC. The Company, however, offers the following estimates concerning the support it expects to receive⁴:

High-Cost Loop Support	\$147800
Local Switching Support (DEM Weighting)	\$212700
Safety Net Additive Support	\$0
Safety Valve Support	\$0

³ Ninth Report and Order and Eighteenth Order on Reconsideration in CC Docket No. 96-45 (In the Matter of the Federal-State Joint Board on Universal Service), FCC 99-306, ¶ 96, November 2, 1999.

10. For calendar year 2002, *Stockholm-Strandburg Telephone Co.* intends to add to plant by adding additional DSL investment. The additions for 2001 include a major switch addition of approximately \$300,000 and over 12 miles of fiber installation. Stockholm also added over \$300,000 in the two prior years. Our investment over the past five years has averaged over \$444,000. Our company will be evaluating our deployment of DSL services and any substantial investments will probably relate to DSL.

11. In providing local exchange telecommunications services, *Stockholm-Strandburg Telephone Co.* will also incur other costs. In 2000 we spent \$270,267 on plant specific expenses, \$121,287 on plant support, \$64,312 on customer expenses and \$196,379 on corporate operations. The depreciation relating to prior additions equaled \$284,802. We expect the 2002 level of expenses to be slightly higher than the year 2000.

13. *Stockholm-Strandburg Telephone Co.* estimates that the total costs described above relating to its planned network facility and equipment investments and other expenses to be incurred in providing local exchange telecommunications services will exceed \$1,000,000.

14. Consistent with the universal service principles set forth in the federal law and also the recent FCC orders referenced herein, *Stockholm-Strandburg Telephone Co.* will use federal universal service amounts received in 2002 (estimated in paragraph 9 herein) to offset a portion of these total costs. This use of federal universal service support will enable *Stockholm-Strandburg Telephone Co.* to: (1) maintain rates for its local exchange services that are affordable and reasonably comparable to rates being charged for the same services in urban areas; and (2) to upgrade its telecommunications facilities and equipment as necessary to meet

⁴ It should be noted that Long Term Support amounts are not referenced because the FCC has indicated that it will deal with certification under 47USC Section 254(e) for these amounts. See 14th Report and Order footnote number

evolving service requirements and maintain high quality service. The use of federal universal service support for these purposes is clearly consistent with the federal universal service provisions.

15. Based on all of the foregoing information and also the Affidavit of Harold Nowick, General Manager of Stockholm-Strandburg Telephone Company, attached as Exhibit A, Stockholm-Strandburg Telephone Company requests that this Commission issue an appropriate certification to the FCC and USAC indicating that Stockholm-Strandburg Telephone Company is in compliance with 47 U.S.C. § 254(e) and should receive all federal universal service support determined for distribution to the Company in 2002. In order to ensure that this certification is issued to the FCC prior to October 1, 2001, Stockholm-Strandburg Telephone Company would further ask the Commission to expedite the process that is initiated based on this filing.

Dated this 17th day of August, 2001.

Respectfully submitted,

Darla Pollman Rogers
MEYER & ROGERS

AFFIDAVIT

As an authorized corporate officer of Stockholm-Strandburg Telephone Company, I, Harold Nowick hereby affirm familiarity with and an understanding of the requirements of the Federal Communications Act of 1934 as amended by the Telecommunications Act of 1996 with respect to the receipt of any federal universal service funds received as high-cost loop support, local switching support, safety net additive support, and/or safety valve support and hereby affirm that any such support amounts received by Stockholm-Strandburg Telephone Company will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended consistent with 47 U.S.C. § 254(e).

Harold Nowick

Subscribed and sworn to before me this 9th day of August 2001.

CONSUMER COMPLAINTS

**CE01-002 In the Matter of the Complaint filed by Dale Riedlinger, Sioux Falls, South Dakota, against
Xcel Energy Regarding Poor Maintenance Service.**

Complainant states that on or about May 21, 2001, Xcel Energy had a tree trimming company come to their area of town and trim trees. Complainant states that when the company trimmed there tree in the front yard of their home, the tree was destroyed by cutting the tree half off. Complainant states that their are only two customers in his neighborhood that do not have buried cable. Complainant inquired about the line being buried and was told that he would have to pay \$7,500.00. Complainant states that Xcel Energy does not have an easement to have the utility pole on his property. Complainant requests that Xcel Energy bury their lines at no cost or a reasonable cost to the customer. Complainant does not feel he should replace his tree because he believes that the problem will occur again when the tree trimming service happens again.

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA**

IN THE MATTER OF THE REQUEST OF)	ORDER GRANTING
STOCKHOLM-STRANDBURG TELEPHONE)	CERTIFICATION
COMPANY FOR CERTIFICATION REGARDING)	
ITS USE OF FEDERAL UNIVERSAL SERVICE)	TC01-115
SUPPORT)	

On May 23, 2001, the Federal Communications Commission (FCC) released an Order concerning the federal universal service support mechanism for rural carriers.¹ This Order (hereafter referenced as the "Fourteenth Report and Order"), in part, codifies at 47 § C F R. 54.314, a requirement for States to provide a certification regarding federal universal service support that is received by rural incumbent local exchange carriers and/or eligible telecommunications carriers providing service in rural service areas. Pursuant to such rule, a state that desires rural carriers within its jurisdiction to receive future federal universal service support must file an annual certification with the FCC and the Universal Service Administrative Company (USAC) stating that federal high cost support provided to such carriers within that State will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. This certification requirement applies to various categories of federal universal service support, including support provided pursuant to 47 C.F.R. §§ 54.301, 54.305, and/or 54.307, and/or 47 C.F.R. Part 36, Subpart F (high-cost loop support, local switching support, safety net additive support, and safety valve support). Support provided under these FCC rule provisions will only be made available in the future if the State Commission files the requisite certification pursuant to § 54.314.

The certification required for rural carriers to receive federal universal support for all four quarters during calendar year 2001 is currently due to be filed with the FCC and USAC on or before October 1, 2001. The certification may be presented to these entities in the form of a letter from the State Commission. The letter must identify which carriers in the state are eligible to receive federal support during the 12-month period and must certify that the carriers listed will only use the support for the provision, maintenance, and upgrading of facilities and services for which the support is intended.

On August 17, 2001, the South Dakota Public Utilities Commission (Commission) received a filing from Stockholm-Strandburg Telephone Company (Company) regarding its Request for Certification Regarding Its Use of Federal Universal Service Support. The purpose of this filing was to provide information constituting Company's plan for the use

¹ CC Docket No. 96-45, CC Docket No. 00-256, Fourteenth Report and Order, Twenty Second Order on Reconsideration, and Further Notice of Proposed Rulemaking in CC Docket No. 96-45, and Report and Order in CC Docket No. 00-256, FCC 01-157, Released May 23, 2001.

of its federal universal service support and to otherwise verify that Company will use all federal universal service support received in a manner that is consistent with the federal universal service provisions of 47 U.S.C. § 254. As a part of its plan, Company listed estimates of the support it expected to receive from USAC as well as its estimated costs for the provision, maintenance, and upgrading of facilities and services. An Affidavit was attached to the Request for Certification.

On August 23, 2001, the Commission electronically transmitted notice of the filing and the intervention deadline of August 31, 2001, to interested individuals and entities. No parties sought intervention.

At its regularly scheduled meeting of September 7, 2001, the Commission considered this matter.

The Commission has jurisdiction over this matter pursuant to SDCL Chapters 1-26, 49-31, and 47 U.S.C. § 254. The Commission found that the Company is eligible to receive federal support as it states it will only use the support for the provision, maintenance, and upgrading of facilities and services for which the support is intended. The Commission unanimously voted to approve Company's Request for Certification Regarding Its Use of Federal Universal Service Support. It is therefore

ORDERED, that the Company is eligible to receive federal support as it states it will only use the support for the provision, maintenance, and upgrading of facilities and services for which the support is intended. It is

FURTHER ORDERED, that the Commission approves Company's Request for Certification Regarding Its Use of Federal Universal Service Support.

Dated at Pierre, South Dakota, this 20th day of September, 2001.

Annual State Certification of Support for Rural Carriers

Dear Ms. Salas and Ms. Flannery:

The South Dakota Public Utilities Commission (Commission) hereby states that the following rural incumbent local exchange carriers and/or eligible telecommunications carriers within its jurisdiction have been certified to receive support pursuant to CFR §§ 54.301, 54.305, and/or 54.307 and /or part 36, subpart F. The carriers listed below filed requests for certification with the Commission which support affirmations that all federal high-cost support provided to them will be used on the provision, maintenance, and upgrading of facilities and services for which support is intended. The Commission has granted certification to the following companies:

Armour Independent Telephone Company
Baltic Telecom Cooperative and East Plains Telecom, Inc.
Beresford Municipal Telephone Company
Bridgewater-Canistota Independent Telephone Company
Cheyenne River Sioux Tribe Telephone Authority
Citizens Telecommunications Company of Minnesota, Inc.
City of Brookings Municipal Telephone
Consolidated Telcom
Dakota Community Telephone
