SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA**

IN THE MATTER OF THE ESTABLISHMENT) TC04-119
OF SWITCHED ACCESS RATES FOR THE)
LOCAL EXCHANGE CARRIERS ASSOCIATION) PETITION TO INTERVENE

Pursuant to ARSD 20:10:01:15.02 AT&T Communications of the Midwest, Inc. (“AT&T”), by its undersigned counsel, petitions the Commission as follows:

1. AT&T is a certificated communications company under the jurisdiction of the Commission.
2. The Local Exchange Carriers Association (“LECA”) has filed with the Commission a letter and supporting documentation, dated June 29, 2004, and supplemented by material dated June 30, 2004, and further supplemented by revised tariff pages accompanying an e-mail transmittal by Marlene Bennett dated August 3, 2004. This material seeks to establish revised, that is, increased, switched access rates for members of LECA, “. . . as necessitated by revisions in member companies’ revenue requirements.” This filing has not been finally approved by the Commission. It is subject to the Commission’s order of August 5, 2004, indicating that the tariff revisions are effective as of August 1, 2004, subject to refund with interest pursuant to SDCL § 49-31-7.4. Other material in the docket indicates that final approval is awaiting LECA responses to staff’s data requests. Thus, the docket is currently open and remains subject to further proof prior to final action by the Commission.
3. AT&T has a direct interest in the outcome of this proceeding. As a certificated local exchange carrier and long distance carrier, AT&T and its customers are subject to the payment of switched access charges in order to do business with LECA and its members. Any increase in access rates increases the cost of doing business for AT&T and increases the cost of services that AT&T provides to its customers.
4. AT&T believes that LECA members, like all other carriers in the wire-line industry today, may be experiencing some decrease in traffic due to wireless and internet usage.
5. LECA member loss in traffic may be due, in part, to their own action deploying VoIP service or wireless service. Carriers, such as AT&T, forced to pay ever-increasing access rates to LECA members should not be subject to the unfairness of paying higher access rates while LECA members or their affiliates also recover revenue for the same alleged traffic loss from their VoIP or wireless services.¹

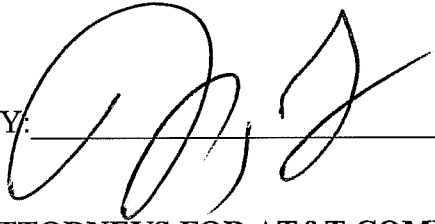

¹ For example, AT&T will seek through discovery, among other areas, information on proper imputation based upon its belief that LECA members and their affiliates may not, in fact, be properly imputing their own access rates to

RELIEF REQUESTED

WHEREFORE AT&T prays that the Commission permit its intervention and participation in this proceeding to examine and cross-examine witnesses, participate in discovery and offer evidence on its own behalf.

Dated this 14th day of September, 2005.
