

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA**

| | | |
|------------------------------------|---|---------------------------------|
| IN THE MATTER OF THE APPLICATION |) | TC07-_____ |
| OF MIDCONTINENT COMMUNICATIONS |) | |
| TO PROVIDE LOCAL EXCHANGE SERVICE |) | NOTICE OF APPLICATION TO |
| IN THE GAYVILLE RURAL SERVICE AREA |) | PROVIDE LOCAL EXCHANGE |
| AND FOR AN AMENDED CERTIFICATE OF |) | SERVICE AND REQUEST FOR |
| AUTHORITY |) | INTERCONNECTION |

TO: PRAIRIEWAVE COMMUNITY TELEPHONE, INC., ATTENTION WILLIAM
HEASTON, ESQUIRE, 5100 SOUTH BROADBAND LANE, SIOUX FALLS,
SOUTH DAKOTA, 57108

YOU WILL PLEASE TAKE NOTICE that pursuant to ARSD 20:10:32:05 the undersigned applies to the Commission for a Certificate of Authority to provide local exchange service in a portion of the geographic area wherein you provide local exchange service. A copy of the application accompanies this Notice to which reference should be made for further particulars.

YOU WILL PLEASE TAKE FURTHER NOTICE that the undersigned requests interconnection pursuant to 47 U.S.C. 251(f)(1)(A). Midcontinent is applying to provide competitive local exchange and long distance services in the Gayville exchange. Midcontinent's application proposes to use a combination of resold services, the structure to be determined by the final interconnection agreement between the parties and the hybrid fiber coax (HFC) network of its cable plant to provide primary transport for residential telephone services. Midcontinent requests that representatives of PrairieWave meet with representatives of Midcontinent at a mutually agreeable location within two weeks of the date of this notice to

EXHIBIT D

establish a schedule and a framework for negotiations to develop an interconnection agreement.

Dated this 29th day of May, 2007.

Sioux Falls, South Dakota 57108

David A. Gerdes

Q: Can my calling card be used with unlimited long distance if I choose the Midcontinent Digital Phone Package?

A: At this time, Midcontinent Communications does not offer a calling card with unlimited long distance. To take advantage of the unlimited long distance, the phone call must originate from the phone number that has the Digital Phone Package with unlimited long distance.

Q: Can I subscribe to Midcontinent Digital Phone Service for my business?

A: Digital Phone is available to businesses in some service areas, call 1-800-888-1300 (or check with your local sales representative).

Q: Do I need a special phone when subscribing to Midcontinent Digital Phone Service?

A: No. With just a few exceptions, any touch-tone or rotary phone will work with Digital Phone Service, including a cordless phone. Your answering machines and Caller ID will also work with Digital Phone Service.

Q: Why do I need to switch my current phone service to Digital Phone?

A: Digital Phone is currently the most advanced phone technology available, and will eventually become the standard Midcontinent Communications phone service offering. In addition to receiving an impeccable quality connection, Digital Phone will enable you to take advantage of future features as the technology develops.

Q: What is included with the Midcontinent's \$29.95 Digital Phone Package?

- A:**
- Digital Phone Line
 - Unlimited long distance to all 50 United States, Canada, Puerto Rico, the Virgin Islands and Guam
 - Call Waiting ID
 - 3-Way Calling
 - Call Forwarding Universal
 - Last Call Return
 - Continuous Redial
 - Speed Call 30
 - Distinctive Ringing
 - Caller ID Name & Number

(Includes Anonymous Call Rejection. Caller ID equipment not included.)

Midcontinent Digital Phone Service

Q: What is Midcontinent Digital Phone Service?

A: Midcontinent Digital Phone Service uses VoIP technology that sends your conversation over our private network in highly reliable digital packets. With Midcontinent Digital Phone, the quality and performance of each call is assured with advanced networking equipment and technology not available with regular Internet-based phone service.

Under no circumstances should you move or disconnect the power source of the Digital Phone equipment while your services are active. This will ensure that you have dial tone and access to 911. If you need to have your Digital Phone equipment moved, please contact us at 1-800-888-1300 and we will assist you.

Q: What equipment is needed for Midcontinent Digital Phone Service?

A: Our qualified technicians will install equipment in your home that will provide the Digital Phone Service allowing you to use the telephones you currently have in your home. There is no monthly service charge for this equipment.

Q: What should I do with the Midcontinent Digital Phone equipment if I move or disconnect my services?

A: If you are moving, please try to call us at least two-weeks in advance so your services are not interrupted. When moving within a Digital Phone market, please take your Digital Phone equipment with you and have it available for the technician on the day and time of install.

If you are disconnecting your telephone service or moving to a non-Digital Phone market, please return the Digital Phone equipment to Midcontinent Communications within three calendar days to avoid a \$175.00 non-returned equipment charge to your account.

Q: Do I need to be home for the installation of Midcontinent Digital Phone Service?

A: Yes. The technician will need to enter your home to install the Digital Phone equipment. The average length of this install is approximately 90 minutes. During this time, the technician will also check other Midcontinent Communication services to ensure that you are receiving the highest quality of service.

Q: Do I have to subscribe to the Digital Phone Package to have Midcontinent Digital Phone Service?

A: No. The Digital Phone Line or any of the telephone features can be selected at A la Carte pricing. Unlimited long distance is available only with the Midcontinent Digital Phone Package.

Q: Can I choose my own Long Distance Carrier?

A: Absolutely. However, to qualify for our \$29.95 Digital Phone Package which includes unlimited long distance to all 50 states, Canada, Puerto Rico and the Virgin Islands, you must choose Midcontinent Communications as your local and long distance provider.

Q: Can I call 911 with Midcontinent Digital Phone Service?

A: Absolutely yes!

Q: What happens if power is lost? Will I lose my Digital Phone Service—what about 911?

A: It is important to Midcontinent Communications that your safety is guarded in the event of a power outage. The equipment that is installed to provide Digital Phone Service is backed up with constantly charging battery packs. Should power be lost, the battery back up will provide 8 hours of dial tone. It is recommended that during a power outage phone usage be limited so that the dial tone is available for emergencies. Once power is restored, the batteries will begin charging again. You should NOT touch the batteries, connections or equipment in the event of a power outage as this can affect the battery life. If the batteries are removed during a power outage, dial tone will be lost until the power is restored, even if the batteries are replaced. As with all of Midcontinent Communication's services, we monitor the quality of our service 24x7. We respond immediately to any and all service interruptions.

Q: Will Midcontinent Digital Phone Service support my fax or answering machines?

A: Because Midcontinent Communication's Digital Phone service is true phone service, it works with your fax and answering machines.

Q: Can I keep my current telephone number?

A: Yes, in nearly all cases you can keep your current telephone number when switching to Midcontinent Communications Digital Phone Service.

Q: Will all the phones in my home be connected to Digital Phone Service?

A: Yes, all of the telephones in your home will enjoy Digital Phone Service.

Q: Can international phone calls be made with Midcontinent Digital Phone Service?

A: Yes, if you request international dialing capability. There is a \$2.00 monthly charge plus the charges for calling internationally. Per minute cost per country can be found on our website at www.midcocomm.com, click on Residential Services, click on Telephone Services then click International Phone Rates.

Midcontinent
COMMUNICATIONS
www.midcocomm.com

Thank you for choosing Midcontinent Communications as your telephone service provider. Providing you with the best possible service is our top priority.

Please review this welcome booklet carefully. In it you will find:

- A features guide outlining a variety of available features and instructions for their use.
- A Voicemail guide containing set-up and utilization instructions.

We have set up your digital phone line to provide the features that you requested on your order. Your directory listing will be as you requested and will remain the same unless you direct us to change it. To subscribe to our Digital Phone Package, you must choose Midcontinent as your local and long distance service provider. If you choose a Local Digital Service Line only, you may select both an in-state long distance carrier and an out-of-state long distance carrier for 1+ dialing. Should you wish to change long distance providers in the future, you will be billed \$5.00 per change.

With Midcontinent Digital Telephone service, you have easy access to Telephone Relay Services by dialing 711. For the latest Road Conditions simply dial 511. Plus, dialing 611 will connect you to our Customer Service Department.

In the event you feel your services have been "slammed," or taken by a telephone company without your authorization, you may contact your state's Public Utilities/Service Commission.

| | |
|---|--|
| SD Public Utilities Commission 500 East Capitol Street Pierre, SD 57501 800-332-1782 | ND Public Service Commission 600 E Broadway, Dept. 408 Bismarck, ND 58505-0480 701-328-2400 |
|---|--|

Please remember that customer service is just a phone call away, 24 hours a day, 7 days a week, at 1-800-888-1300. We welcome your comments and questions.

Midcontinent Communications' Terms and Conditions Agreement for Telephone Service can be found on our website at www.midcocomm.com.

Again, thank you for choosing Midcontinent Communications. We look forward to providing your telephone services.

Rights & Responsibilities

Local Phone Service

If you switch your local telephone service to Midcontinent Communications and choose to keep your existing telephone number(s), Midcontinent Communications will contact your current local service provider to transfer your existing numbers and terminate your existing service.

If you switch your local telephone service to Midcontinent Communications and choose a new Midcontinent Communications telephone number, you must notify your current carrier of the change after your new telephone number has been installed.

If you relocate to a different address, you must contact Midcontinent Communications to verify your new 911 address information. In the event of an extended power outage, 911 service may be limited or not available. Please call Customer Service at 1-800-888-1300 for more information.

Long Distance Phone Service*

If you are changing to Midcontinent Communications long distance service, you must notify your current carrier that you want to terminate your long distance service with them. Some carriers will require written authorization.

If you choose to keep your current long distance carrier, you must notify them that Midcontinent Communications is now your local telephone service provider.

** Midcontinent Communications must be designated as your long distance carrier in order to take advantage of our Digital Phone Package.*

Consumer Tips

- Be aware that charges are always incurred when you listen to or participate in a program offered over a 900 number, even if you are calling to claim a "free" prize. Listen to the introductory message and hang up promptly if you decide you are not interested in the program or do not wish to pay the charges given.
- Be aware that information services are rarely completely free if they are provided over toll-free numbers. If it sounds too good to be true, it probably is.
- Be careful in making all long distance calls, accepting collect calls, or accepting unsolicited offers from information providers.
- Be aware that not all advertisements for information services disclose the charges you will be assessed.
- Caution children or other individuals who make phone calls from your telephone line about the charges associated with calls to information services.

Telephone Fraud Is A Serious Problem

Today, telemarketing fraud is a multi-billion dollar business in this country. Every year, thousands of people lose anywhere from a small amount to their life savings, and it is very difficult to get your money back if you've been cheated. Please keep the following information by your phone to help you determine if a call is legitimate:

- If you have to purchase something, give out your credit card number, bank information, or send a personal check to be eligible for the "great offer," refuse it. Check with your local consumer protection agency (Better Business Bureau, etc.) prior to doing business with an unfamiliar company.
- If you are promised free gifts, prizes, or vacations if you "act right now," consider this a warning. Take your time. Legitimate companies won't pressure you into making a snap decision.
- Con artists often label phony charities with names that sound like better-known, reputable organizations. Ask the caller to send written information on their organization. Reputable charity groups are happy to do this.

The Federal Trade Commission (FTC) requires telemarketers to make certain disclosures and prohibits certain misrepresentations. It also gives you the power to stop unwanted telemarketing calls and provides state law enforcement officers the authority to prosecute fraudulent telemarketers operating across state lines.

The FTC's Telemarketing Sales Rule covers most types of telemarketing calls to consumers, including calls to pitch goods, services, "sweepstakes," prize promotions, and investment opportunities.

For more information about telephone fraud and the rules governing phone telemarketing, contact the Federal Trade Commission at 1-877-382-4357.

* Midcontinent reserves the right to terminate phone service due to fraudulent usage.

Digital Phone Package & Phone Bill Information

Midcontinent's Digital Phone Package†:

The Digital Phone Package includes your local access line AND unlimited local and long distance phone calls to all 50 United States, Canada, Puerto Rico, the Virgin Islands and Guam*. Call anytime, day or night, with no calling plan minutes to manage.

DIGITAL PACKAGE PHONE FEATURES

- Call Waiting/
- Call Waiting ID
- 3-Way Calling
- Call Forwarding
- Universal
- Last Call Return
- Continuous Redial
- Speed Call 30
- Distinctive Ringing
- Caller ID Name & Number (includes Anonymous Call Rejection)

Caller ID equipment not included.

Several features are also available on most Midcontinent lines on a pay-per-use basis for customers who have not selected the Digital Phone Package. These include 3-Way Calling, Continuous Redial, Call Trace and Last Call Return. These features function as described in the following pages and incur a per use charge. If you would like to have these features blocked from service, please call 1-800-888-1300.

* Locations other than those listed above are considered International and charged per minute calling rates. Some restrictions apply. Customer minutes used may be monitored and if in excess of 5,000 minutes of toll usage per month, a residential customer will be presumed to be in violation of the applicable restrictions of the service agreement. To review the customer service agreement or see international calling rates, visit our website at www.midcocomm.com.

† Available in Midcontinent serviceable areas only. Calling card calls, 900 number calls, operator assisted calls, and Directory Assistance are not included in the Digital Phone Package and may incur additional charges. Deposit may be required.

Understanding Your Telephone Bill

Your Midcontinent Communications telephone bill includes taxes and fees mandated by law that include the following:

- Residential Access Line Charge. This is a charge proposed and authorized by the Federal Communications Commission (FCC), for providing access to, and maintenance of, the local network.
- Local Number Portability Surcharge. The FCC allows telephone companies to add this charge to all telephone lines. This fee compensates the companies for their work in creating systems in which people who change local telephone companies can take their telephone number with them.
- Hearing Impaired Surcharge. State government imposes this monthly charge, which helps to provide telephone services to the hearing impaired.
- County Government 911 Surcharge. This fee helps pay for the emergency 911 calling system.
- State and Federal Taxes. The amount of your State and Federal taxes varies with your location. All telephone companies assess the same percentages.
- Federal Universal Service Fund. The Federal Universal Service Fund (FUSF) supports telecommunication needs of consumers in low-income households, schools, libraries, and rural healthcare providers.

Depending upon your location, other taxes and fees may apply.

Midcontinent Communications bills for recurring services (line, features and options/packages) one month in advance. Your first bill will include your regular monthly charges in addition to any installation fees and partial month charges incurred since installation.

Using the Features of Your Service

Call Waiting

A quick beep signals that you have another call when you are on the phone. You can put the original caller on hold while taking the second call, or flip between the two.

How To Use:

1. When you hear the tone, press and quickly release the receiver button on your phone, and greet your new caller.
2. To alternate between calls or return to your first caller, press and quickly release the receiver button on your phone.
3. To end either conversation, simply hang up.
4. If one of your callers is still on the line, your phone will ring. When you pick up the call, you will be connected to the caller.

To Turn Off Call Waiting Before a Call:

1. Push ***70** on your touch-tone phone. You will hear three short tones followed by a dial tone.
2. Place your call.
3. Call Waiting is automatically restored when you hang up.

To Turn Off Call Waiting During a Call:

1. During your conversation, press and quickly release the receiver button on your phone. (If you do this at a Call Waiting indication you will answer the incoming call.)
2. Push ***70** on your touch-tone phone. You will hear three short tones followed by a dial tone.
3. Press and quickly release the receiver button on your phone to return to your conversation.
4. Call Waiting is automatically restored when you hang up.

Call Waiting ID

With Call Waiting ID, you hear a tone when you are on the line indicating another call is coming to you. You also get a display that shows you who is calling. You can capture the call information on your display unit even if you chose to not accept the incoming call. (Caller ID display unit must be purchased separately.)

3-Way Calling

Do you need to talk to two people at the same time? With 3-Way Calling, you will be able to add a second person to your call or put one person on hold and make a second call. You can use 3-Way Calling for both Local and Long Distance Calls.

How To Use:

1. Place your first caller on hold by pressing and quickly releasing the receiver button on your phone.
2. You will hear a brief stutter tone. When you hear the normal dial tone, you can make your second call.
3. When the second caller answers, press and quickly release the receiver button to connect all callers.
4. If the second caller does not answer or you reach a busy signal, press and quickly release the receiver button to return to the first caller.
5. If either party disconnects, you can continue talking with the remaining party.
6. To end the call completely, simply hang up.

For more information about the features on your line, consult your monthly statement, or call **1-800-888-1300**. Or, visit the Midcontinent website at: www.midcocomm.com.

Call Forwarding Universal

Are you leaving the house and don't want to miss that important call? Call Forwarding Universal allows you to forward calls temporarily to another number you select.

Toll charges will apply to your bill for calls forwarded outside of your local call area.

How To Use:

1. On your touch-tone phone, press ***72**.
2. When you hear the dial tone, dial the number to which you want your calls forwarded. Wait for the person to answer.
3. If no one answers the phone, or the line is busy, hang up and repeat steps one and two. When Call Forwarding has been activated, you will hear a fast busy signal.
4. To verify your calls are being forwarded, press ***72** on your touch-tone phone. If you hear a busy signal, your Call Forwarding is working. If not, repeat steps one and two.
5. To de-activate call forwarding, press ***73** on your touch-tone phone. The stutter tone followed by dial tone indicates to you that your calls are no longer being transferred.

Anonymous Call Rejection

A service to Caller ID customers, this allows you to block all anonymous calls.

To "Turn On" Anonymous Call Rejection

Lift the handset and press ***77**. Two fast busy signals confirm that the service has been activated.

To "Turn Off" Anonymous Call Rejection

Lift the handset and press ***78**. A stutter dial tone indicates the service has been cancelled.

Last Call Return

Did they hang up before you picked up? With ***69**, you'll be able to return most of those calls.

How To Use:

1. Lift the handset and dial ***69**.
2. A recorded voice will give you the number of the call you missed and ask if you would like to return the call.
3. Press **1** to connect to that call.

Please note that not all numbers will be provided. Last Call Return does not work on 800 or 900 numbers, numbers outside the specified service area, and lines where Call Forwarding and some other call services have been activated.

Continuous Redial

Did you get a busy signal? Continuous Redial can let your phone redial those busy numbers while you make and receive other calls.

How To Use:

1. When you get a busy signal, hang up, pick up the receiver again, and press ***66**.
2. Your phone will continue to redial that number for up to 30 minutes.
3. A special callback ring notifies you when the call connects. Just pick up the phone, and you are connected to the person that you're trying to call.
4. To cancel, lift the receiver and press ***86**.

Speed Call 30

You can store 30 frequently called numbers by dialing two digits instead of the entire phone number.

Programming Speed Call 30:

1. Lift the handset and dial ***75**.
2. Listen for a stutter dial tone.
3. Choose a two-digit speed code (choose any number, 00-29).
4. Dial the phone number you want assigned to that speed code (for long distance numbers, include a "1" and the area code).
5. Press the # key. A fast busy signal indicates the number has been stored.

To Change Your Speed Call 30 List:

1. Lift the handset and dial ***75**.
2. Listen for the stutter dial tone, and then enter the two-digit code you wish to change.
3. Enter the new telephone number (for long distance numbers, include a "1" and the area code).
4. Press the # key. A fast busy signal indicates the number has been stored.

Using Speed Call 30:

1. Lift the handset and listen for a dial tone.
2. Dial * followed by the desired two-digit speed code.

Distinctive Ringing

Do you want to know when priority people are calling? Distinctive Ringing will let you know when designated people are calling with a special ring. You can store up to 15 different priority numbers.

How To Use:

To set up or turn Distinctive Ringing on or off for the most recent phone number that called you, pick up your phone after your call has ended, dial ***61**, and follow the recorded instructions.

Call Trace

Call Trace helps stop threatening, obscene or harassing calls. If you receive a threatening call: Hang up immediately. Lift the receiver, press ***57** and follow the recorded instructions. Always dial 911 in an emergency situation. The caller's name and number will not be released to you under any circumstances. Normally, it takes three successful traces before any deterrent action will be taken by a law enforcement agency.

E-Voice

To set your Midcontinent voicemail for access through email as well as from a telephone, call our Customer Service Department at 1-800-888-1300 to let us know the email address you want to use to access your voicemail messages. When you receive an email stating you have a voicemail message, you have the option of listening to it online or through your phone. You can also click to delete the message from voicemail access if you know you do not want to keep it for later retrieval from a phone.

How To Use Your Voicemail

Caller ID

Find out who is calling you before you pick up the phone. To use Caller ID, your phone must have, or you may purchase separately, a display unit that stores names and numbers of recent callers.

How To Use:

1. When your Caller ID service is activated, follow the directions with your display unit.
2. "PRIVATE" or "ANONYMOUS" calls come from callers who have their names and numbers blocked.

Options To Block/Unblock Your Caller ID:

Upon initial installation of your digital telephone service your name and number will not be blocked unless you have elected Non-Published Service.

Blocking Your Caller ID

You can block your name and number so when you place an outgoing call parties using Caller ID equipment will not see this information. "Private" will be displayed instead. Dial ***67** before you place a call. When you hang up your Caller ID feature will be restored.

Unblocking Your Caller ID Block

(with Non-published Service)

You can unblock your Caller ID block feature that is provided with Non-Published Service. Dial ***82** before you place a call. When you hang up your Caller ID blocking feature will be restored.

Non-Published Service

Means your number is not published in the phone book, nor is it available from 411 information.

Non-Listed Service

Means your number is not published in the phone book, but is available from 411 information.

Accessing Your Main Menu

From Your Own Phone

1. Dial one of the access numbers shown below depending upon where you live.
