Re: Certification of Federal Universal Service Fund Support for Fort Randall Telephone Company

Dear Mr. Best:

On June 1, 2007, Fort Randall Telephone Company ("Fort Randall") filed its Request for Certification of Federal Universal Service Fund Support in South Dakota. Valley responds to your email of June 11, 2007, as follows:

1. Paragraph 2 of the filing includes the following: "The Company does not maintain records to separate universal service support received with respect to South Dakota access lines from universal service support received with respect to Minnesota access lines. Accordingly, the information contained on Exhibit A reflects an allocation of total amount in each category by the respective number of access lines in South Dakota and Minnesota." Please explain why this statement is being made for Fort Randall.

Response: Those statements do not apply to Fort Randall and were inadvertently included in Fort Randall's filing. We apologize for any confusion that inclusion has caused.
