RE: TC07-104 – Support for Request

Dear Ms. VanGerpen:

Enclosed is a confidential document that provides a summary of the calculations regarding PrairieWave's waiver filing in this docket. In its initial filing PrairieWave stated that a cursory cost analysis indicates that a full study could result in justifying a higher rate. The attached document supports that statement. Please provide the attached to Ms. Cremer and Mr. Best of the Commission Staff.

Pursuant to 20:10:01:39(4), PrairieWave requests confidential treatment for the enclosed document. The document is a result of a cursory cost analysis which is competitively sensitive, contains cost information that other cannot obtain in the ordinary course of business, the release of which can be competitively detrimental to PrairieWave, and which PrairieWave does not release outside the company and allows to be released internally to only those who need to know. The length of time for which confidentiality is being requested is until the docket has been closed. At that time, the document should be destroyed. This document is trade secret and competitively sensitive information.

If there are any questions relating to this filing, or the request for confidential treatment of the document enclosed, or we need to discuss further, please contact Bill Heaston at (605) 965-9894 or bill.heaston@knology.com.

Sincerely,

/s/ filed electronically

Kristie Lyngstad
