EXHIBIT "D"

The following is a brief description of the qualifications and experienced Engineers of Clertech.com.inc.

Matthew Broch

Matthew Broch is currently a senior software engineer/architect at Clertech. He is designing an ERP system to support the Clertech.com subsidiaries companies, documents business processes in order to facilitate development of an ERP system, designs site maps for web-facing systems, develops and implements enterprise architecture for an SQL server, integrates the automated employee tracking system, develops prototypes for integration with MS Dynamics using eConnect, and interviews and recommends staff for the development team. Mr. Broch has been a software engineer for many reputable enterprises, requiring cooperative managerial skill, extensive technological knowledge, and inspiring leadership abilities. Mr. Broch has a Bachelor of Science degree in computer and information science from Barry University. He has vast programming and database experience and is versed in many operating systems.

Joaquin Fagundo

Joaquin Fagundo is a multilingual information technology management professional with more than 15 years of executive level experience assisting companies with their technological goals. He has worked in infrastructure design and implementation, strategic planning, program management, budgeting, proposal development, and client management. At Clertech, he is a senior network engineer and spearheads the design and development of the Company's infrastructure. He has been instrumental in building out Clertech's hosting environment and its call centers overseas. Before being recruited by

Clertech, Mr. Fagundo was a senior project manager for Veracity Management Group and, prior to that, the director of IT at Dantzler, Inc. He has worked in high-profile roles in both Miami and New York and holds a wide range of technical certifications and degrees.

Frank J Eagles

Frank Eagles is the senior network engineer and infrastructure design lead for Clertech. He has designed and built the Company's internal network and has been critical in mapping the call centers and handling data connectivity issues. Before joining the Company, Mr. Eagles held a variety of upper-level, tech-based jobs for businesses as varied as the Baltimore Convention Center and Info Pro Incorporated, where he was the senior LAN/WAN engineer. His experience with technology dates back to the 1970s. Mr. Eagles holds two bachelor's degrees in the humanities and earned his master's degree in information systems technology at the University of Illinois.

Christopher J. Thomas

Christopher Thomas is an application development expert with eleven years of experience in programming, software engineering, and working in various computer development environments. He is currently a software engineer at Clertech and works closely on design and development issues related to the Company. Before Clertech, Mr. Thomas worked in data entry and processing as an application developer for Fantasy Sports Acquisitions, as an internal developer for TEKGroup International, and as a programmer for Grasshopper Entertainment. Mr. Thomas holds a bachelor's degree in computer science from Nova Southeastern University.

Robert Bruck

Mr. Bruck joined Clertech, in 2007; Mr. Bruck has an extensive experience in the field of software engineering and architecture. He currently position at Clertech.com.inc senior software architect and engineer. He designs corporate information technology infrastructure built around an ERP system, which incorporates several major commercial software subsystems that solve the needs of different divisions within the corporation. Previously, Mr. Bruck was a software architect and engineer for several Internet properties around Boca Raton, Florida, from 1999-2007. His longest tenure was at Wills.com, which lasted ten years and, at its peak, involved the oversight of a 25-person sales team. Mr. Bruck has also personally created free, public service-oriented websites and was instrumental in the creation of the high-traffic domain BusinessPlans.com. Lastly, while at OLDP, Inc., he created a system for law firms to use to create legal documents. Mr. Bruck has additional former experience as a software engineer with numerous companies, since 1977. Mr. Bruck obtained his Bachelor of Arts degree in engineering and applied physics from Harvard University in 1980. He then became a teaching fellow for Harvard from 1977-1980, where he taught introductory and intermediate electronics and software engineering classes.

WHO WE ARE
