RE: Docket TC08-127 - Replacement Tariff Page

Dear Ms. Van Gerpen:

Qwest Corporation has attached for filing with the Commission the following replacement page from the Access Service Tariff. Please substitute the suspended page with the attached replacement page.

<b>SECTION</b>	<b>PAGE</b>	<b>RELEASE</b>
2	19	3

Pursuant to discussion with Ms. Terri LaBrie Baker of Commission Staff, Qwest is replacing page 19 to correct a clerical error.

Acknowledgment and date of receipt of this transmittal are requested. If you have any questions regarding this filing, please contact me.

Sincerely,

A handwritten signature in black ink that reads "Susan Henson". The signature is fluid and cursive, with the first name being more prominent.

Release 3

State of South Dakota  
Issued: 10-31-2008

Effective: 7-14-2009

**2. GENERAL REGULATIONS**

**2.3 OBLIGATIONS OF THE CUSTOMER**

**2.3.10 JURISDICTIONAL REPORT REQUIREMENTS**

B. Jurisdictional Requirements (Cont'd)

2. Feature Group C (FGC) or Feature Group D (FGD) Service

a. Originating FGC or FGD Service

When a customer orders FGC or FGD Switched Access Service(s), where the jurisdiction is determined from the call detail, the Company will develop the projected PIU factor according to such jurisdiction. The projected interstate percentage is developed on a monthly basis, by end office, when the originating FGC or FGD access minutes are measured, by dividing the measured interstate originating access minutes by the total originating access minutes.

b. Terminating FGC Service

When a customer orders terminating FGC Switched Access Service, the data used by the Company to develop the projected PIU factor for originating FGC access minutes is used to develop the projected PIU factor for such terminating access minutes. When originating call details are insufficient to determine the jurisdiction for the call, the customer may supply the projected PIU factor by LATA[1] or authorize the Company to use the Company developed percentage for such call detail. The Company will designate the number obtained by subtracting the projected PIU factor for originating and terminating access minutes calculated by the Company from 100 (100 - Company calculated projected interstate percentage = intrastate percentage) as the intrastate percentage of use.

[1] When the customer reports a LATA-level PIU factor, the specified percentage applies to all end offices within the LATA.
