**Responses to 3<sup>rd</sup> data request**

**July 15<sup>th</sup>, 2009**

**3-1) You had estimated \$10,000 each for Turton and Houghton Wire Centers and \$0 was spent; yet you indicated all network improvements were completed as planned at a lower cost. Were the improvements planned in these wire centers done?**

The \$10,000 per exchange was not a planned network improvement but an estimate to cover unexpected plant repairs. The fact that we spent \$0 indicates that we had no unexpected costs in those exchanges. James Valley has had no planned improvements in these exchanges that have not been done.
