RE: 360networks (USA) inc. - Access Services Tariff, Advice Letter No. 2, Docket No. TC09-092

Dear Ms. Van Gerpen:

Pursuant to Staff request, enclosed for filing with the South Dakota Public Utilities Commission are pertinent confidential calculations in support of 360networks (USA) inc.'s ("360") amended switched exchange access rates filed on October 8, 2009 under the Company's Advice Letter No. 2 in the above-referenced matter and the corresponding Qwest Corporation Access Service Tariff pages.

Pursuant to South Dakota Administrative Rules, §20:10:01:41, Requests for confidential treatment of information, 360 requests that the confidentiality of the calculations be protected. Although 360's rate calculations incorporate corresponding incumbent local exchange carrier rate elements, the calculations themselves are considered highly confidential. 360 maintains that the calculations contain sensitive network planning and configuration information that is not available to the public. The release of such information to the public, including competitors, could do irreparable harm to 360 by divulging important planning and cost considerations on which the Company has relied in deploying its network, that could undermine the Company's ability to compete. Protection of the confidential information will have no adverse impact on the public. 360 requests that the document's confidentiality be retained for a period of no less than five (5) years. The undersigned may be contacted regarding confidentiality requests.

Also enclosed is revised Sheet 54 to the Company's tariff. Presubscription rates have been deleted, per staff request. Thank you for your attention to this matter. Questions may be directed to me.

Sincerely,

MILLER ISAR, INC.
