Subject: TC10-003 Broadview app for Certificate of Authority in SD

Mr. Jacobson,

Thanks very much for the head's-up.

As to item 1, I can confirm that Broadview does not intend to serve in non-Qwest areas, or those protected by the "rural safeguards" unless and until Broadview files a further separate application to do so.

As to item 2, Broadview has no objection to a Certificate of Authority condition that would restrict Broadview to service in Qwest territories.

Please let me know if I should be submitting a more formal (i.e., paper) version of these confirmations. If it would make matters less complicated, I would be happy to do so.

Many thanks,

Catherine

Catherine:

Please find a couple additional questions.

1. Please confirm: Broadview does not intend to serve in non-Qwest areas, or those protected by the "rural safeguards" unless and until Broadview files a further separate application to do so.

2. Does Broadview object to a Certificate of Authority condition that: Broadview be restricted to serve in Qwest territories?

Many thanks for the update. I will start on the waiver right away.

The Company would certainly be willing to abide by all prepaid/deposit restrictions.

I will get the sales tax account number to you as soon as it is available (my apologies, I believe the hold-up internally has been with the accounting staff) and sorry about the tariffs.

Many thanks,

Catherine

Catherine:

I have been assigned your application for a certificate of authority for local and IXC service in South Dakota and have the following questions/requests.

1. Please submit a written request for waiver of ARSD 20:10:24:02 (9) and ARSD 20:10:32:03 (12) as you unable to submit stand alone financial statements for the applicant.

2. Given that stand alone financial statements are not available, would the applicant agree to being restricted from offering prepaid cards, collecting any prepayments, advance payments or deposits? In lieu of these restrictions, the applicant can submit a bond for \$25,000. A bond form acceptable to the Commission is attached. <<DOC012110.pdf>>

3. Please submit the applicant's South Dakota sales tax number when available.

4. Regarding item # 21 on the 11th page of the application, please do not submit tariffs to the Commission in the future. The service offerings proposed by the applicant have been detariffed in South Dakota.

Thank you,
Dave Jacobson
