Subject: TC11-090 - Wholesale Carrier Services, Inc. certificate of authority DR2

Mr. Roesel:

Following is the second data request regarding the application of Wholesale Carrier Services, Inc. for a certificate of authority from the South Dakota Public Utilities Commission.

1. Is the applicant the same "Wholesale Carrier Services, Inc." which had its certificate of authority revoked by the South Dakota Public Utilities Commission in Docket TC04-250?
2. Did the applicant continue to operate in South Dakota without a certificate of authority and subsequently pay the Gross Receipts tax due for years 2003, 2004, and 2005?
3. Did the applicant still yet continue to operate without authority and submit an annual report to the Commission for the years 2006, 2007 and 2008?
4. Provide a detailed description of the years the applicant has operated in South Dakota, the years it has filed an annual report, the years it has paid gross receipts tax, and what actions the applicant intends to take regarding the years it has operated without a certificate of authority and/or the years it has not paid gross receipts tax.
5. Considering the above, why should the Commission consider granting a certificate of authority to the applicant?

If you have any questions, please reply or contact me or Staff Attorney Karen Cremer at the Commission.
