Re: MCC Telephony of the Midwest, LLC
Revisions to Access Services Tariff (S.D. P.U.C. Tariff No. 1)

Dear Ms. Van Gerpen,

Enclosed, on behalf of MCC Telephony of the Midwest, LLC (“MCC”), please find proposed tariff revisions to the Company’s above-referenced telecommunications access services tariff. The purpose of this filing is to adjust the Company’s intrastate originating access rates in response to the Federal Communications Commission’s (“FCC”) Second Order on Reconsideration in WC Docket Nos. 10-90, etc., FCC Release No. 12-47 (Apr. 25, 2012), which delayed through June 2014 the requirement that a carrier’s intrastate originating access charges for IP-PSTN traffic be set in parity with its interstate originating access rates. Early in 2012, MCC reduced its terminating and originating intrastate access rates to levels at (or below) its interstate rates in response to the FCC’s Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011), which mandated that carriers apply interstate-level access charges to intrastate switched IP-PSTN traffic. The FCC’s subsequent April decision reversed course with respect to originating intrastate rates for IP-PSTN traffic through June 2014. The

November 30, 2012

Page Two

changes proposed in this filing effectively return MCC's originating rates to their intrastate levels, prior to the February 2012 revisions. The revisions also include formatting changes which break out terminating and originating rates. Finally, there is a revision to the provisions in Section 5 (VoIP-PSTN Traffic) to reflect the changes just described.

The following pages are included with this filing:

Pages	Revision Level
1	2 nd Revised Page
50, 51	2 nd Revised Page
64	1 st Revised Page

This tariff material is submitted with an issued date of November 30, 2012 and a proposed effective date of December 30, 2012.

Request for Waiver

In connection with this filing, MCC is submitting a request for waiver from ARSD §§ 20:10:29:10, 20:10:29:12 and 20:10:29:16, which require that carriers' terminating and originating access rates be equal. The Commission has granted similar requests this past year arising from carriers' efforts to adapt to the FCC's access rate reform program and MCC believes that a grant of this request is appropriate.¹

¹ On July 12, 2010, the Commission approved MCC's initial access services tariff and granted the Company waivers of ARSD 20:10:27:12, ARSD 20:10:27:13 and ARSD 20:10:27:07 provided that the Company's switched access rates and related costs remain at or below "comparable Qwest Corporation rates." *In the Matter of the Filing By MCC Telephony of the Midwest, LLC for Approval of its Initial Access Services Tariff and Waivers and Exemptions*, TC10-07, Order Approving Tariff And Granting Petition For Exemption And Waiver. MCC confirms that its switched access rates as revised in this filing, remain at or below those of Qwest Corporation and are therefore consistent with the waivers granted.
