III. Description of the Financing

The Service Providers will participate in a series of debt financing transactions. The Service Providers will enter into (a) a first lien credit facility, consisting of (x) a term facility of up to \$590 million (7-year maturity from the Closing Date); (y) a revolving credit facility of \$50 million (5-year maturity from the Closing Date); and (z) an incremental term and/or revolver facility of at least \$100 million; and (b) a second lien credit facility of up to \$255 million (7.5-year maturity from the Closing Date), and an incremental term and/or revolver facility of at least \$50 million, in each case, as such amounts may be modified in accordance with market conditions. The Service Providers will retire approximately \$554 million of debt (secured by substantially all of the assets and property of GTEL Holdings, Inc., and its subsidiaries, including the Service Providers) at the time of closing. Additional credit, not to exceed \$150 million, may be obtained post-closing by the Service Providers. The expected date of closing is no later than May 23, 2013.

The proposed indebtedness will replace the Service Providers outstanding credit facilities and thereby allow the Service Providers to obtain long-term credit on favorable terms. In addition, the Service Providers expect that the proposed issuance will: (a) substantially increase the ability of the Service Providers to expand their operations in South Dakota; (b) pay a dividend on Holdings common stock; (c) fund potential acquisitions; and (d) provide the Service Providers with the financial resources necessary to compete more effectively with other service providers in South Dakota.

IV. Public Interest Considerations

The Service Providers submit that the Financing described in this Notice will serve the public interest. The Financing will not adversely affect the operation of the Service Providers. In particular, the Service Providers submit that: (1) the Financing increases competition in the South Dakota telecommunications market by reinforcing the Service Providers' status as a viable competitor and ensuring that the Service Providers can continue to provide service on an uninterrupted basis; (2) the Financing will allow the Service Providers to significantly expand their operations, including in South Dakota; and (3) the Financing for which approval is sought are solely financial arrangements that will not affect the day-to-day operations of the Service Providers and will be entirely transparent to their customers.
