RE: Interstate Telecommunications Cooperative, Inc. f/k/a SSTELECOM ("ITC CLEC"),
Revised Terminating Intrastate Switched Access Rate Structure

Dear Ms. Van Gerpen,

Attached for electronic filing, on behalf of ITC CLEC, are revised tariff pages to ITC CLEC's Intrastate Switched Access Services Tariff No. 1 in order to implement the Federal Communications Commission's (FCC), November 18, 2011, Intercarrier Compensation Reform Order (FCC 11-161).

In accordance with FCC rules found in 47 CFR §51.911, this filing revises the terminating intrastate switched access rates in order to bring terminating intrastate switched access structure to parity with the currently effective interstate terminating switched access rate structure. This revision is a revenue neutral rate filing as the overall terminating intrastate rate per minute will remain the same as currently effective due to the current interstate terminating rate being currently higher than the currently effective intrastate terminating rate per minute.

ITC CLEC respectfully requests that the proposed changes become effective July 1, 2013.

If you have any questions, please feel free to contact me at (605) 995-1750.

Sincerely,

A handwritten signature in blue ink that reads 'Doug Eidahl'.
