
STAFF MEMORANDUM

To: Commissioners and Advisors
From: Brian Rounds
RE: Staff's Submittal of Study Area Boundaries to the FCC

June 25, 2013

Following yesterday's release of the Commission's Order Certifying Study Area Boundaries in Docket TC13-026, I filed the final shapefiles and CLLI codes using the FCC's web interface this morning. They appear to have been accepted without incident.

Staff intends to begin working immediately with ILECs to attach boundaries to geographical features, with the goal of submitting a final update to the FCC at this time next year.
