**SECTION 2 - RULES AND REGULATIONS, (CONT'D)****2.9 Obligations of the Customer (Continued)****2.9.3 Identification and Rating of Toll VoIP-PSTN Traffic (continued)****C. Calculation and Application of Percent-VoIP-PSTN-Usage Factor**

The Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under Section 2.9.3.C, above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU (however determined – either based on call detail information or PIU) exchanged between the Company and the Customer, until July 13, 2012 and after June 30, 2014. From July 13, 2012 through June 30, 2014, the PVU will be applied to only the terminating intrastate access MOU. The PVU will be derived and applied as follows:

- 1) Except as otherwise provided in Section 2.9.3.C 3) below, the Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the whole number percentage of the total intrastate access MOU that the Customer exchanges with the Company in the State, that (a) is terminating access sent to the Company and that originates in IP format; or (b) is originating access received from the Company and terminates in IP format until July 13, 2012 and after June 30, 2014. From July 13, 2012 through June 30, 2014, the PVU will represent only the terminating intrastate access MOU. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. (T)
- 2) Except as otherwise provided in Section 2.9.3.C 3) below, the Company will, likewise, calculate a factor (the "PVU-B") representing the percentage of the Company's total intrastate access MOU in the State that the Company originates or terminates in IP format until July 13, 2012 and after June 30, 2014. From July 13, 2012 through June 30, 2014, the PVU will represent only the terminating intrastate access MOU. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. (T)

**SECTION 2 - RULES AND REGULATIONS, (CONT'D)**

**2.9 Obligations of the Customer (Continued)**

**2.9.3 Identification and Rating of Toll VoIP-PSTN Traffic (continued)**

**C. Calculation and Application of Percent-VoIP-PSTN-Usage Factor**

- 4) The Company will apply the effective PVU factor to the applicable intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs. (M)

Example 1: The PVU-A is 40% and the PVU-B is 10%. The effective PVU factor is equal to  $40\% + (10\% \times 60\%) = 46\%$ . The Company will bill 46% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff.

Example 2: The PVU-A is 0% and the PVU-B is 10%. The effective PVU factor is  $0\% + (10\% \times 100\%) = 10\%$ . The Company will bill 10% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the effective PVU is 100%. The Company will bill 100% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff. (M)

**SECTION 2 - RULES AND REGULATIONS, (CONT'D)**

**2.9 Obligations of the Customer (Continued)**

**2.9.3 Identification and Rating of Toll VoIP-PSTN Traffic (continued)**

**C. Calculation and Application of Percent-VoIP-PSTN-Usage Factor**

- 5) If the Customer does not furnish the Company with a PVU-A pursuant to 2.9.3.C 1) preceding, the Company will utilize an effective PVU equal to the PVU-B.
- 6) The Customer shall not modify their reported PIU factor to account for Toll VoIP-PSTN Traffic.

**(D)**

**E. PVU Factor Updates**

The Customer may update the PVU-A factor or the Company may update the PVU-B quarterly using the method set forth in subsection 2.9.3.C 1) or 2.9.3.C 2), respectively, above. If the Customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-A factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVU-A to calculate a revised PVU. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

**SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)**

**3.9 Rates and Charges**

**3.9.1 Common Line Access Service**

**A. Carrier Common Line**

Per Originating Minute:	\$0.03842000	
Per Terminating Minute:	**	(C)

**3.9.2 Switched Transport**

**Entrance Facility** \$150.00
