Exhibit E – A911 Routing Brochure

The Industry leader in NextGen 9-1-1
Implementations is NENA i3 Compliant!

Intrado® Advanced 9-1-1℠

i3 Routing Core and i3 Routing Plus Packages

The Intrado Advanced 9-1-1 (A9-1-1®) product suite offers a flexible architecture that includes NENA i3 compliant Next Generation 9-1-1 (NextGen 9-1-1) solutions for call delivery to your PSAPs.
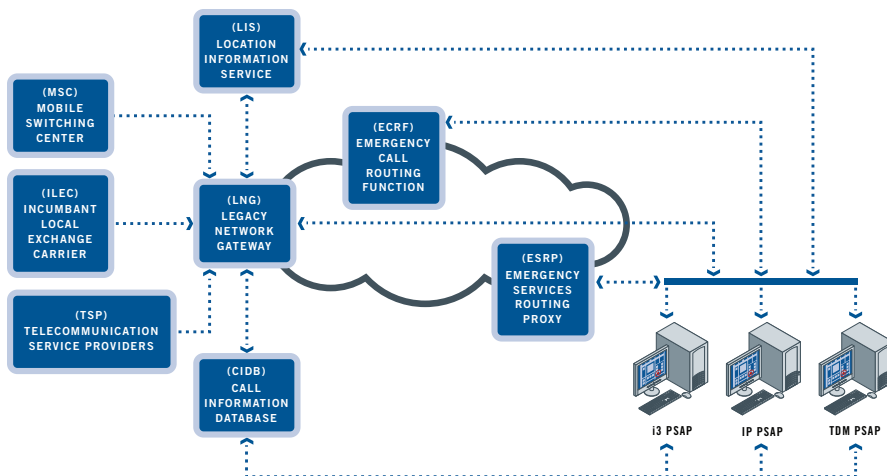

The Intrado A9-1-1 i3 Routing Core Package offers your PSAPs a complete NENA i3 compliant ESInet solution that is time-tested and reliable.

The Intrado A9-1-1 i3 Routing Plus Package adds hosted call handling equipment for a complete, no hassle solution. With options like Text29-1-1® and Beware®, the Core and Plus packages will provide the platform for all of your next-generation needs.

Intrado®

A Smooth Transition to i3 Compliance

When you are ready for i3, the Intrado i3 solution is here for you. Intrado will customize a transition plan to NENA i3 compliance that will best fit the needs of your PSAPs. Intrado will also ensure that your PSAPs will be able to interoperate with both legacy and NextGen PSAPs that are outside of your jurisdiction.

intrado®

Benefits

- Intrado's NextGen IP routing solutions are time-tested and proven fast and reliable
- Migration from legacy 9-1-1 to the A9-1-1® i3 Routing Core or Plus Package is managed by Intrado's experienced implementation team working in coordination with the PSAPs
- Flexible migration plans will support legacy, i3 compliant and other IP enabled PSAPs during transition

Key Features

- Comprehensive NENA i3 Core Functions include the LNG, ESRP, ECRF, LVF, SIF and a regional LIS and CIDB during Carrier transition to i3. The hosted Terminating ESRP (Call Handling Equipment) is included with the A9-1-1 i3 Routing Plus Package.
- Complies with the NENA i3 ESInet and Core Function specifications to ensure interoperability between other services and ESInets.
