Pierre, SD 57501

RE: REVISED SERVICE TERRITORY FOR INTERSTATE TELECOMMUNICATIONS COOP.,
INC.

Dear Ms. Van Gerpen:

Please consider this letter as an application for an amended Certificate of Authority for local exchange service pursuant to SDCL 49-31-69.

Enclosed is a Revised Exchange Service Territory Map reflecting the new telephone service territory boundaries requested for Interstate Telecommunications Cooperative, Inc. ("ITC") (Attachment 1). Also enclosed is a true and correct excerpt of the ITC Board of Directors regular meeting held on April 7, 2015, whereby the Board of Directors passed the attached resolution approving this boundary change (Attachment 2).

ITC is making this request pursuant to SDCL 49-31-69 through 73. We are further requesting that the Public Utilities Commission waive Rules 20:10:32:03 (1-8); (10-22); and (24).

This application is being made pursuant to a service request from Mustang Pass, LLC, which is building a new facility within the boundary change area. ITC and Century Link jointly determined the best way to serve this Mustang Pass, LLC, is through the boundary change requested herein. ITC will then provide Mustang Pass, LLC, with the full range of local exchange services provided to all residents of its territory.

The parties further request those certain revisions to the other boundaries as referenced in Attachment 1 so that the boundaries follow easily-identifiable landmarks such as roadways. We further advise that prior to the construction of this new facility, no customers have been served in the proposed boundary change area by either ITC or Century Link. Also enclosed is an email from Century Link concurring with the boundary change and maps included in this filing (Attachment 3).

If there is anything further that you or the Commission should need regarding this matter, please let me know. I can be contacted at (605) 874-2181 or (605) 695-1004.

Sincerely,

Jerry Heiberger
General Manager
Interstate Telecommunications Coop. Inc.
