Re: TC15-014 – In the Matter of the Application of Interstate Telecommunications Cooperative, Inc. for an Amended Certificate of Authority

Dear Ms. Van Gerpen:

On June 17, 2015, Interstate Telecommunications Cooperative, Inc. (ITC) submitted an application for an amended certificate of authority for local exchange service pursuant to SDCL 49-31-69. This application was made pursuant to a service request from Mustang Pass, LLC, which is building a new facility within the boundary change area. This boundary change area includes the section where the new facility is located and further revises the boundaries to follow easily-identifiable landmarks such as roadways. Attached to this letter is a map staff created to more clearly depict the entire boundary change area.

Upon review of the filing, staff finds this proposed boundary change to be in the best interest of all the parties and would recommend the Commission grant the waivers of ARSD 20:10:32:03 (1-8); (10-22); and (24) and approve ITC's request for an amended certificate of authority.

Sincerely,

Patrick Steffensen
