Trouble Shooting Tips:

Trouble with your telephone may come from any of three sources:

1. The telephone set
2. Wiring inside your home or business
3. The telephone line

To check:

Test your modular phone by unplugging the one with the problem and try another phone. If this corrects the problem, it is probably a problem with your telephone itself. Have the phone repaired or replaced.

If you have determined that the telephone is not the problem, check the phone at the phone jack nearest to where your phone line comes into your home or business. If the phone works here but not in another place in your house, the problem is most likely in the inside wiring. If the inside wiring appears to be the problem or you cannot identify what is causing the problem, contact the telephone office at 611 or 1-800-824-7282.

To Report Trouble:

When reporting trouble to our service desk or off-hours answering service, please provide the following information:

1. Your full name and street address.
2. Your telephone number.
3. What the trouble is and if you are having trouble with all of your telephones or just one.
4. If possible, a telephone number where you can be reached.

Customer Assurance Plan

Nobody likes to worry about what might happen. That's why we have developed our *Customer Assurance Plan* to protect you in case of the unexpected. If you have trouble with the telephone wiring or installed jacks inside your home or business, our technicians will repair the problem at no cost to you. Without this protection, a problem in the wiring within your house will cost you time and materials, which can quickly run into a large sum of money. Don't wait!! Call our office today at 611 or 1-800-824-7282 to have our *Customer Assurance Plan* placed on your line.

Customer Do-Not-Call Notification...

The Federal Communications Commission (FCC) and Federal Trade Commission (FTC) have established a national Do-Not-Call Registry that applies to all telemarketers (with the exception of certain non-profit and political organizations) and covers both interstate and intrastate telemarketing calls. Commercial telemarketers are not allowed to call you if your number is listed on the registry.

You may register your phone number free, and it will remain on the national Do-Not-Call Registry. You may remove your name from the list at any time. The Do-Not-Call Registry will not prevent all unwanted calls. It does NOT cover the following:

- calls from organizations with which you have established a business relationship
- calls for which you have given prior written consent
- calls which are not commercial or do not include unsolicited advertisements
- calls by or on behalf of tax-exempt non-profit organizations

Consumers may register their residential telephone number, including wireless cellular numbers, on the national Do-Not-Call Registry at no cost by telephone or on the Internet. To register by telephone, consumers may call 1-888-382-1222. For the hearing impaired, TTY call 1-866-290-4236. You must call from the phone number you wish to register. You may also register over the Internet at www.donotcall.gov. Inclusion of your telephone number on the national Do-Not-Call Registry will be effective three months following your registration.
