| | | |
|-------|--|---|
| <110> | Has your company received its ETC certification from the FCC? If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC? | (yes / no) <input type="radio"/> <input checked="" type="radio"/> (yes / no) <input type="radio"/> <input type="radio"/> |
|-------|--|---|

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

391659pd112.pdf

Name of Attached Document

Please select the appropriate responses below (Yes, No, Not Applicable) to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to §54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

| | |
|--|-----|
| <113> Maps detailing progress towards meeting plan targets | Yes |
| <114> Report how much universal service (USF) support was received | Yes |
| <115> How much (USF) was used to improve service quality and how support was used to improve service quality | Yes |
| <116> How much (USF) was used to improve service coverage and how support was used to improve service coverage | Yes |
| <117> How much (USF) was used to improve service capacity and how support was used to improve service capacity | Yes |
| <118> Provide an explanation of network improvement targets not met in the prior calendar year. | Yes |

Five-Year Network Improvement Plan and Progress Report
For Golden West Telecommunications Cooperative, Inc. (Study Area 391659)

In its *USF/ICC Transformation Order* and subsequent Orders, the Federal Communications Commission (“FCC” or “Commission”) required Eligible Telecommunications Carriers (“ETCs”) to submit a five-year build-out plan in a manner consistent with Section 54.202(a)(1)(ii) of the Commission’s Rules by July 1, 2014 and to submit annual progress reports thereafter.¹ In its *March 5, 2013 Order*, the FCC specified that for rate-of-return carriers, the five-year plans “should describe the carrier’s network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories.”² Golden West Telecommunications Cooperative, Inc. (“Golden West” or the “the Company”) is a rate-of-return carrier ETC and hereby submits its annual progress report covering any progress made during the first half of 2015 on the initial five-year network improvement plan submitted in 2014 as well as any updates to the plan made since initial submission of the plan for study area 391659.

² *March 5, 2013 Order* at Para. 9 citing Section 54.202(a)(1)(ii).

I. The Company's Five-Year Network Improvement Plan

When the Commission adopted its five-year plan requirements for FCC-designated ETCs in its *2005 ETC Order*, it set forth the following criteria as to how the ETC is to describe with “specificity” the proposed improvements or upgrades to the ETC’s network throughout its service area:

(1) how signal quality, coverage, or capacity will improve due to the receipt of high-cost support throughout the area for which the ETC seeks designation; (2) the projected start date and completion date for each improvement and the estimated amount of investment for each project that is funded by high-cost support; (3) the specific geographic areas where the improvements will be made; and (4) the estimated population that will be served as a result of the improvements.³

In that order, the FCC clarified that service quality improvements in the five-year plan “do not necessarily require additional construction of network facilities.”⁴ Accordingly, the improvements listed in the plan may be projects related to the expansion of the network (one or multiple services), projects related to updating technology to accommodate new services or higher bandwidth or maintenance projects, such as to reduce trouble reports or replace outdated equipment. Additionally, in some cases, the projects may be ones that improve or upgrade the entire network rather than discrete areas within a study area or they may be ones that are ongoing projects that have no specific start and completion dates.

The instructions to the Form 481 state “[r]ecipients may describe where improvements are expected to occur by wire center or census block, as appropriate. To the extent no improvements

³ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“*2005 ETC Order*”).

⁴ *Id.*

are planned in specific areas, the five-year plan should so indicate.”⁵ The instructions also require that in subsequent annual progress reports, which must include the total amount of universal support received, this information must be provided “broken out separately by the amount spent on capital expenses and the amount spent on operating expenses.”⁶ Accordingly, the Company’s five-year plan separately provides both capital expenditures and operating expenses.

A. The Company’s Major Network Improvement Projects

Based upon this framework, **Appendix A** updates Golden West’s five-year plan submitted in 2014 for study area 391659 and reflects its major network improvement projects for the five calendar years 2015 through 2019⁷ along with the start and completion dates, capital costs, areas and population associated with those projects.

B. How These Projects Will Improve the Network

As detailed in **Appendix A**, Golden West Telecommunications Cooperative, Inc. anticipates investing ██████████ for network improvements in study area 391659 during calendar years 2015 – 2019. These investments will fund fiber-to-the-home (FTTH), transport network, and subscriber carrier facilities upgrades, road move projects, network maintenance and repairs, switch licensing and equipment, and general support items.

Golden West annually completes a comprehensive forward-looking two year budget, which most recently was completed in late 2014 for years 2015 and 2016. During this process, the 2015 investment items included in the previous year’s budget were reassessed and adjusted to

⁵ Instructions for Completing FCC Form 481, OMB Control No. 3060-0986 (High-Cost), OMB Control No. 3060-0819 (Low-Income), July 2013, Line 112.

⁶ Instructions for Completing FCC Form 481, OMB Control No. 3060-0986 (High-Cost), OMB Control No. 3060-0819 (Low-Income), July 2013, Line 112.

⁷ The initial five-year network improvement plan covered calendar years 2015-2019.

address any previously unforeseen facilities issues/upgrades and regulatory change. In addition to refining the 2015 budget, an initial plan was drafted for 2016. The projections detailed in **Appendix A** for years beyond 2016 are based on both actual costs from recent years and current year estimates. As a result of the Company's budgeting process, there are updates to the five-year plan filed with the 2014 FCC Form 481.

[REDACTED]

As detailed in the initial five-year plan, improvements planned for the transport network in 2015 include MPLS (Multiprotocol Label Switching) Ethernet deployment, upgrades to interexchange transport, interexchange ring facilities, and spare equipment. [REDACTED]

[REDACTED]

The investments detailed in **Appendix A** for the 2015 central office subscriber carrier upgrades have been revised since the initial plan, in part to reflect FTTH upgrade changes to the budget. [REDACTED]

[REDACTED]

[REDACTED]

Other investments projected for years 2015 – 2019 will be directed toward maintaining the existing network, providing for service to new subscribers, improving service quality to existing subscribers as needed, and further enhancements to the transport network that will support increased bandwidth to keep up with consumer demand.

The investments shown for “Other Cable and Wire Additions” will be used to bring broadband and/or voice services to new subscribers and provide for cable maintenance and repairs across the entire service area. [REDACTED]

[REDACTED]

[REDACTED]

Those investments detailed for “Central Office Transmission” are intended for maintenance and repairs of the existing transport facilities throughout the service area. They may also be used toward the purchase of new equipment to accommodate increased bandwidth as consumer demand requires. These investments will improve the quality of both voice and broadband services. [REDACTED]

The investments listed for “Building and Maintenance Upgrades”, “Vehicle and Work Equipment Replacement”, and “Information Technology Services” are intended for the entire service area and will allow for general maintenance and upgrades to central offices, the purchase of outside plant equipment essential for the day to day upkeep of the network, and computers and other telecommunications equipment necessary for the business operations of the Company. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

C. Estimated Capital Expenditures and Operating Expenses

The first table in **Appendix B** included herein specifies the capital expenditures (projects) in **Appendix A**, by Part 32 account, along with the respective year in which the expenditures are expected to occur. In the second table of **Appendix B**, the projected operating

expenses are provided, including depreciation expense for both embedded plant investment and for capital expenditures, which begins when the capital expenditures are projected to be placed into service.

II. The Company's Progress Report on its Five-Year Network Improvement Plan

Because the calendar year 2015 is still under way, Golden West has no progress to report on the network improvement projects planned for 2015. Comprehensive progress made on network improvements in 2015 will be reported by Golden West in its 2016 ETC Annual Report for study area 391659. Golden West hereby provides the following required elements of its progress report to satisfy Form 481 reporting obligations.

A. The Amount of Universal Service Support Received by the Company for Study Area 391659

For the 2014 calendar year, which was outside of the scope of the Company's initial five-year network improvement plan, Golden West study area 391659 received a total of [REDACTED] in high cost universal service support ("USF") through the following mechanisms:

- [REDACTED] for Interstate Common Line Support ("ICLS");
- [REDACTED] for High Cost Loop Support ("HCLS");
- [REDACTED] for ICC CAF Support;

B. How Golden West Telecommunications Cooperative, Inc. – Study Area 391659 Has Used USF to Improve Service Quality, Coverage and Capacity

Section 254(e) of the Communications Act of 1934, as amended requires ETCs to use Universal Service support ("USF") "only for the provision, maintenance, and upgrading of facilities and services for which the support is intended."⁸ Pursuant to Section 54.314 of the FCC's

⁸ 47 U.S.C. § 254(e).

rules, in order for state-designated ETCs to receive USF for the coming year, states must annually file certifications by October 1 stating that all federal high-cost support provided to such carriers within the state “was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.”⁹ ETCs not designated by a state must file similar certifications with the FCC.¹⁰

In its *USF/ICC Transformation Order*, the FCC clarified that prior to making the Section 254(e) certifications, states should conduct a “rigorous examination of the factual information” contained in the annual Section 54.313 reports, of which the five-year network improvement plan and annual progress reports are a part, in determining whether they can certify that carriers’ support has been used and will be used only for the purpose for which the support was intended.¹¹ The FCC said that it would also use the reports to verify certifications filed by ETCs that are not state-designated.¹² In this context, the Commission stated, “[i]n light of the public interest obligations we adopt in this Order, a key component of this [Section 254(e)] certification will now be that support is being used to maintain and extend modern networks capable of providing voice and broadband service.”¹³

Essentially, under the existing rules and processes, the federal USF received by the Company and other incumbent rural telephone companies are, in fact, an integral part of the

⁹ 47 C.F.R. § 54.314(a).

¹⁰ 47 C.F.R. § 54.314(b).

¹¹ See *USF/ICC Transformation Order* at Para. 612.

¹² *Id.*

¹³ *Id.* (emphasis supplied).

recovery of expenditures of rural incumbent local exchange carriers incurred in the provision, maintenance and upgrading of their provision of facilities and services for which the USF is intended. Golden West depends upon its receipt and utilization of federal universal service support to provide rural telephone customers with affordable and quality voice and broadband services.

Accordingly, given the critical role the network improvement plan as updated herein and the progress reports will have in the annual Section 254(e) certification process, Golden West's plan and progress reports demonstrate how the Company has used and will use USF not only for improvements and upgrades, but also for the provision and maintenance of the facilities and services to which the support was intended. Even though the FCC did not require the Company to include calendar year 2014 as part of the Company's network improvement plan and thus there is no information to report regarding progress during that year, the Company hereby certifies that during that year it used USF solely for which the support was intended.

C. Maps Depicting the Company's Network Progress

Attached to this Five-Year Network Improvement Plan as **Appendix C** is Golden West's map depicting the extent of the Company's network within study area 391659 and indicating specific geographic areas associated with certain projects listed above.

D. Network Improvement Targets Not Met

Because 2015 is the first year of the Company's network improvement plan, there is no previous year for which to report network improvement targets that have not been fulfilled. The Company will report such information for calendar year 2015 as well as progress towards meeting its targets for that year in its progress report submitted in 2016.

Golden West Telecommunications Cooperative, Inc. - Study Area 391659

Response to Line 330 – Description of Unfulfilled Broadband Service Request

[Redacted text block containing multiple lines of blacked-out content]

Certification of Service Quality Standards & Consumer

Protection Rules Compliance for Voice and Broadband Services

Golden West Telecommunications Cooperative, Inc. (hereinafter "the Company") hereby certifies that it is complying with applicable service quality standards and consumer protection rules.

This document details the processes and procedures that the Company follows to ensure compliance with service quality standards and consumer protection rules as laid out in FCC Form 481 Instructions.

The Company provides voice grade access to the public switched telephone network (PSTN) at a flat rate, thereby enabling access to emergency services provided by local government or other public safety organizations such as 911.

For service quality standards that are affected by plant issues, the Company engineers and installs its plant and other facilities in such a way as to ensure, to the greatest extent possible, safe, adequate, and continuous service at all times.

In addition, employees are periodically trained on service quality standards and consumer protection issues. In particular, if any set of issues appear to be prevalent, employees are given briefings on how to handle such issues, beyond the normal guidelines in place for resolution of customer complaints. A recent example is the call completion problems that have arisen and the customer calls that are generated as a result. Although this is not a service quality problem caused by the Company, it does affect customers of the Company and, therefore, deserves the attention of the Company employees.

The Company also periodically reviews its operating procedures to be sure that those operating procedures are in compliance with service quality standards and that the operating procedures are not in violation of consumer protection rules. Internally a compliance officer ensures annual employee training and dictates disciplinary processes for improper use of consumer information. If concerns arise that cannot be handled by the compliance officer, legal counsel is sought to assist with a resolution.

If complaints are filed with the Company related to service quality standards or consumer protection rules, the complaint is immediately investigated, the matter tracked and any corrective action noted. This process ensures that problems are addressed and corrections made.

The Company advertises the availability of its services and the charges using media of general distribution and on its website.

The Company is subject to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C 47 C.F.R. Part 8 §8.3.

The Company maintains six business offices throughout its service area providing customers with access to a customer service representative either in person or via a local telephone number or toll-free telephone number during normal business hours. Customers also have access to the repair service and internet help desk twenty-four hours a day, seven days a week by calling a toll-free number, or by calling one of the business office numbers, which forward to these services after hours.

Certification of Functionality in Emergency Situation

Golden West Telecommunications Cooperative, Inc. (hereinafter “The Company”) hereby certifies that it is able to function in emergency situations as set forth in §54.202(a)(2).¹ The Company’s critical network infrastructure is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can take reasonable steps to reroute traffic around damaged facilities and manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available and the facility can be safely accessed, or until reasonable system changes are made to reroute traffic.

The capacity of the Company to function in emergency situations encompasses both voice and broadband.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to “demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”

Golden West Telecommunications Cooperative, Inc.

Description of Tribal Engagement

Golden West Telecommunications Cooperative, Inc. (hereinafter “the Company”), study area 391659, provides services to small areas on the Cheyenne River Sioux Reservation and Rosebud Sioux Reservation and the majority of the Pine Ridge Reservation.

Cheyenne River Sioux Tribe

On October 15, 2014, by letter sent via certified mail to the Tribal Chairman, the Company requested a joint meeting with the Cheyenne River Sioux Tribe (CRST) to exchange information and discuss issues related to the deployment and provisioning of communications services on Tribal lands. The Company did not receive a response to the first letter; therefore, a follow up letter was sent via certified mail to the Tribal Chairman on December 3, 2014. No response was received from the follow-up letter. The Company received the signed certified receipts back for both letters confirming delivery to the Chairman’s office.

Rosebud Sioux Tribe

On February 21, 2014, Greg Oleson, Golden West’s Director of Member Services, Communications, and Government Affairs, had a discussion with Paul Valandra, Director of Economic Development for the Rosebud Sioux Tribe (RST) regarding Golden West’s service on the Rosebud Reservation.

On April 30, 2014, Greg Oleson met with the President of the Rosebud Sioux Tribe and also with the President’s Chief of Staff. This meeting was a follow-up to discussions held in 2013 regarding Golden West’s offer to provide free Wi-Fi broadband at a tribally designated community building in each RST community. During this meeting Greg informed the RST President that the Company had turned up this service at the first location, a community center in St Francis, SD. A discussion followed concerning what community would be next. Following the meeting with the President, Greg traveled to St Francis with the RST President’s Chief of Staff to look at the site.

On November 3, 2014, by letter sent via certified mail to the Tribal President, the Company requested a joint meeting with the Rosebud Sioux Tribe to continue discussions related to the

deployment and provisioning of communications services on Tribal lands. The Company did not receive a response to that letter; therefore, a follow up letter was sent via certified mail to the Tribal President on December 3, 2014. No response was received from the follow-up letter. The Company received the signed certified receipts back for both letters confirming delivery to the President's office.

In addition to the St Francis community center, Golden West completed the provisioning of Wi-Fi broadband internet service to community buildings in the tribal communities of Parmelee, and Spring Creek by the end of 2014, and was making plans for a community center in Soldier Creek. Golden West provides the broadband internet service to these community centers at no charge and the service is available for free to patrons and visitors at these facilities.

Oglala Sioux Tribe

On April 1, 2014 Denny Law, Golden West's General Manager/CEO, and Greg Oleson, Golden West Director of Member Services, Communications and Government Affairs, met via conference call with the President of the Oglala Sioux Tribe, and two members of the Oglala Sioux Tribal Utilities Commission. The purpose of this meeting was to discuss the upcoming Fiber-to-the-Home (FTTH) project on the Pine Ridge Reservation that ultimately upgraded several hundred Golden West subscribers to fiber optic cable facilities.

On October 28, 2014, by letter sent via certified mail to the Tribal President, the Company requested a joint meeting with the Oglala Sioux Tribe to continue discussions related to the deployment and provisioning of communications services on Tribal lands. The Company did not receive a response to that letter; therefore, a follow up letter was sent via certified mail to the Tribal President on December 3, 2014. No response was received from the follow-up letter. The Company received the signed certified receipts back for both letters confirming delivery to the President's office.

Aside from Golden West's efforts to engage directly with the Tribal President's office, the Company has participated by phone in monthly meetings held by the Oglala Sioux Tribal Utilities Commission (OSTUC) and commented on certain proposed OSTUC orders. Greg Oleson also met with the Director of the OST Land Office several times in 2014, in person and over the phone. While these discussions were generally related to lease renewals, etc., Greg regularly inquired about the quality of Golden West's service on the Pine Ridge Reservation.

Golden West is not aware of any directive issued by the OST President's office or tribal council regarding the designated Tribal entity with whom companies should coordinate for the Tribal

engagement process; Therefore, Golden West has focused our efforts on engaging with the Tribal President's office.

In accordance with provisions in the FCC's USF and ICC Transformation Order, paragraphs 636 and 637, and 47 CFR 54.313(a)(9), Golden West Telecommunications Cooperative, Inc. will work to continue discussions with the Cheyenne River Sioux Tribe, Rosebud Sioux Tribe and Oglala Sioux Tribe in 2015. The Company, with Tribal input, will continue to evaluate the need for future service deployments on Tribal lands while working to overcome challenges associated with right-of-way and permitting processes. The feasibility and sustainability of communications services on Tribal lands will be discussed and the Company will, with assistance from the Tribal Authorities, attempt to identify additional steps that can be taken to make essential communications services deployed on Tribal lands both feasible and sustainable. The Company and Tribal Authorities will also discuss and explore ways in which they can coordinate to ensure that services are marketed on tribal lands in a manner that will relate to the community and resonate with consumers, with the aim of increasing service adoption.

Lifeline Terms and Conditions

Golden West Telecommunications Cooperative, Inc. offers Lifeline program-supported service to qualified low-income residential consumers for one telephone line per eligible household. The Lifeline program provides discounts to eligible low-income consumers to help them establish and maintain telephone service. Lifeline assistance lowers the cost of basic, monthly local telephone service. Eligible consumers can receive \$9.25 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost.

Lifeline Program Eligibility Information

Program Based Eligibility

Consumers are eligible for Lifeline if they, one of their dependents or their household participate in one of the following qualifying assistance programs:

- Low-Income Home Energy Assistance Program (LIHEAP)
- Federal Public Housing Assistance (Section 8)
- Supplemental Nutrition Assistance Program (SNAP)
- Medicaid
- National School Lunch Program's Free Lunch Program
- Supplemental Security Income (SSI)
- Temporary Assistance for Needy Families (TANF)

Lifeline applicants must present documentation demonstrating eligibility either through participation in one of the qualifying federal assistance programs or through income-based means.

Acceptable documentation of program-based eligibility includes: current or prior year's statement of benefits from a qualifying state, federal or Tribal program; notice letter of participation in a qualifying state, federal or Tribal program; program participation documents; or another official document evidencing the consumer's participation in a qualifying state, federal or Tribal program.

Income Based Eligibility

In addition, consumers are eligible for Lifeline if their household income is at or below 135% of the federal poverty guidelines.

2015 Federal Poverty Guidelines – 135%

| Household Size | 48 Contiguous States and D.C. | Alaska | Hawaii |
|---------------------------------|-------------------------------|----------|----------|
| 1 | \$15,889 | \$19,872 | \$18,292 |
| 2 | \$21,505 | \$26,892 | \$24,745 |
| 3 | \$27,121 | \$33,912 | \$31,198 |
| 4 | \$32,737 | \$40,932 | \$37,651 |
| 5 | \$38,353 | \$47,952 | \$44,104 |
| 6 | \$43,969 | \$54,972 | \$50,557 |
| 7 | \$49,585 | \$61,992 | \$57,010 |
| 8 | \$55,201 | \$69,012 | \$63,463 |
| For each additional person, add | \$5,616 | \$7,020 | \$6,453 |

Acceptable documentation of income eligibility includes: prior year's state, federal or Tribal tax return; current income statement from an employer or paycheck stub; social security statement of benefits; Veterans Administration statement of benefits; retirement/pension statement of benefits; unemployment/workmen's compensation statement of benefits; federal or Tribal notice of letter participating in General Assistance; or a divorce decree or child support award or other official document containing income information.

Tribal Eligibility

A subscriber who lives on Tribal lands and is an eligible resident of Tribal lands is eligible for Tribal Lifeline service or Tribal Link Up if the subscriber, one or more of the subscriber's dependents, or the subscriber's household participates in any of the above-listed qualifying assistance programs or one of the following Tribal-specific federal assistance programs: Bureau of Indian Affairs General Assistance; Tribally Administered Temporary Assistance for Needy Families; Head Start (if income eligibility criteria are met); or the Food Distribution Program on Indian Reservations (FDPIR). Tribal subscribers may also qualify if the household income is at or below 135% of the Federal Poverty Guidelines. Subscribers eligible for Tribal Lifeline may receive their basic monthly telephone service at no charge.

Numbers of Minutes-of-Use Provided as Part of Lifeline Program Service

Golden West Telecommunications Cooperative, Inc.'s Voice Lifeline service includes unlimited local minutes-of-use within the toll-free calling area. Golden West Telecommunications Cooperative, Inc.'s Voice Lifeline Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the Lifeline service, toll blocking is available to eligible consumers at no cost.

Rates

Subscribers may receive the Lifeline credit on any type or grade of local service, including bundled services that are normally offered by Golden West Telecommunications Cooperative, Inc. Advertised rates do not include any applicable taxes or surcharges.

Recertification of Lifeline Eligibility

Lifeline recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for the Lifeline program will result in termination of the Lifeline recipient's monthly Lifeline discount and de-enrollment from the Lifeline Program.

Additional Lifeline Program Information

The Lifeline program is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined, for purposes of the Lifeline program, as an individual or group of individuals who live together at the same address and share income and expenses. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.

Golden West Telecommunications Cooperative, Inc. (SAC 391659)

Response to Line 3010 – Milestone Certification (47 CFR §54.313(f)(1)(i))

Golden West Telecommunications Cooperative, Inc., study area 391659, hereby certifies that throughout 2014, it took reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 4 Mbps downstream/1 Mbps upstream, and currently, it is taking reasonable steps to provide upon reasonable request actual speeds of at least 10 Mbps downstream/1 Mbps upstream broadband service at with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas as determined in an annual survey, and that requests for such service are met within a reasonable amount of time.

Golden West Telecommunications Cooperative, Inc.- Study Area 391659

**Response to Line 3012 - List of Community Anchor Institutions to Which the ETC Newly
Began Providing Service**

The FCC's *USF/ICC Transformation Order* requires a listing of community anchor institutions to which the ETC newly began providing broadband service. Golden West Telecommunications Cooperative, Inc., study area 391659, did not newly begin providing community anchor institutions with access to broadband service in calendar year 2014.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0572-0031. The time required to complete this information collection is estimated to average 4 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
