Since then, TCS has evolved into a leader in wireless messaging and location technology. Today, TCS is delivering the essential software, services, and solutions to wireless telecommunication carriers that enable people to better manage their mobile lifestyle.

Since its inception, the company has experienced significant growth, from generating \$28 million in revenues during its first 10 years to \$58.1 million in revenues in 2000. The company has grown to more than 500 employees based principally in Annapolis, Seattle and Tampa. In August of 2000, TCS launched itself as a public company with a successful Initial Public Offering (IPO) raising \$92 million.

He graduated from the United States Naval Academy in 1978 with a Bachelor of Science degree in Operations Analysis. Following his graduation, he served on active duty in the United States Navy for eight years in posts throughout the United States, rising to the rank of Lieutenant. After his service at sea, Mr. Tosé returned immediately to the Naval Academy as an instructor. For more than 10 years, Mr. Tosé has been an active member of the Naval Reserves, attaining the rank of Commander, including an extensive assignment to the staff of the United States Secretary of Defense.

At Techmatics, Mr. Tosé was responsible for the marketing and management of systems integration contracts for the DoD. These contracts involved the installation, maintenance, personnel training and integrated logistics support for turnkey communications systems.

With over 21 years of experience providing technical solutions through operations research techniques in engineering, telecommunications, complex automated data processing and wireless systems, Mr. Tosé and his company have been recognized through the receipt of numerous awards including 2000 and 1997 Ernst & Young Entrepreneur of the Year finalist, The Lamond Godwin Bridge Builders Award for Excellence in Minority Business Relations, The national Association of Black Telecommunication Professional's Granville T.
