re: Broadband Milestone certification

To whom it may concern:

In compliance 47 CFR 54.308 (2), Santel Communications Cooperative certifies it has taken reasonable steps to provide upon reasonable request broadband service at actual speeds of 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, and that requests for such service are met within a reasonable amount of time.
