

**BEFORE THE
SOUTH DAKOTA PUBLIC UTILITIES COMMISSION**

IN THE MATTER OF THE REQUEST OF)	
CHEYENNE RIVER SIOUX TRIBE TELEPHONE)	ANNUAL ETC
AUTHORITY FOR CERTIFICATION)	CERTIFICATION FILING
REGARDING ITS USE OF FEDERAL)	
UNIVERSAL SERVICE SUPPORT)	

Cheyenne River Sioux Tribe Telephone Authority (The “Authority”), by and through its attorney, makes this filing to seek certification from the South Dakota Public Utilities Commission (the “Commission”) to comply with the provisions of ARSD§§20:10:32:52 and 20:10:32:54 of the Commission’s rules pertaining to eligible telecommunications carriers (“ETCs”).

In accordance with 47 C.F.R.§54.314, federal universal service high cost support provided to carriers will be made available only if the State Commission files the requisite annual certification with the FCC and USAC. The certification required specifically for rural carriers to receive federal high cost universal service support for all four quarters during calendar year 2020 is currently due to be filed with the FCC and USAC on or before October 1, 2019. The certification may be presented to these entities in the form of a letter from the State Commission. The letter must identify which carriers in the State are eligible to receive federal high cost support during the 12 month period and must certify that the carriers listed will only use the support for the provision, maintenance and upgrading of facilities and services for which the support is intended.

As part of its annual request to the Commission for certification, the Authority provides the following information:

1. The Authority is a rural telephone Authority that has previously been designated by this Commission as an ETC. The Authority provides: (A) local exchange voice services to approximately 2,672 access lines; and (B) broadband services to approximately 1,443 customer locations within its established rural service area(s), study area(s) in South Dakota. These services include all the essential services that are included in the federal definition of universal service.

2. The provisions of ARSD§20:10:32:54 addressing the annual “Certification requirements” adopted by this Commission require a progress report on any previously filed service quality improvement plan. Thus, the Authority files as Confidential Exhibit A hereto its progress report. The provisions of ARSD §20:10:32:54 in part ask for information on “how much universal service support was received” by the ETC. Accordingly, Confidential Exhibit A includes the Authority’s 2018 federal universal service receipts. This same Exhibit also shows total expenditures made by the Authority in 2018 relating to the provision, maintenance and upgrading of facilities and services for which universal service support is intended under federal law. In addition, to the extent that the Authority’s actual capital investments in 2018 differ from the 2018 planned investment information previously provided to this Commission, the differences are noted in Confidential Exhibit A. Finally, Confidential Exhibit A, per the provisions of ARSD§20:10:32:54(2) includes additional information detailing progress made toward meeting 2018 service quality improvement plan targets, providing an explanation regarding any network improvement targets that were not met.

3. The Authority also provides the Commission with a "two-year service quality improvement plan" as required by ARSD § 20:10:32:54(1) including planned expenditures for calendar years 2020 and 2021 relating to the provision, maintenance, and upgrading of facilities and services for which universal service support is intended. (Confidential Exhibit B)

4. Cheyenne River Sioux Tribe Telephone Authority is using federal high cost universal service support amounts thus far received in 2019 to meet the objectives identified in previously filed service quality improvement plans and will continue to do so with respect to universal service amounts received in 2020. This use of federal universal service support will enable the Authority to: (A) maintain rates for its local exchange services that are affordable and reasonably comparable to rates being charged for the same services in urban areas; and (B) upgrade its telecommunications facilities and equipment as necessary to meet evolving service requirements, including those related to broadband services, and maintain high quality service. The use of federal high cost universal service support for these purposes is clearly consistent with the federal universal service provisions.

5. Lastly, also attached is Exhibit C a document containing the certifications required under the provisions of ARSD §§20:10:32:54(6) and 20:10:32:54(7). Consistent with the Commission's Order Waiving ETC Certification Requirements issued on May 2, 2019 in Docket AA19-01, the remaining ETC certification rule provisions found in ARSD §§ 20:10:32:54(8) and 20:10:32:54(9) have by Order been waived by this Commission.

6. Based on all the foregoing information, including all information provided within Confidential Exhibits A and B and Exhibits C and D (attached hereto), the Authority requests that this Commission issue an appropriate certification to the FCC and USAC indicating that the Authority is in compliance with 47§ 254(e) and should receive all federal high cost universal service support determined for distribution to the Authority in 2019. In order to ensure that this certification is issued to the FCC prior to October 1, 2019, the Authority would further ask the Commission to expedite this process, to the extent needed to meet such deadline.

Dated this 25 day of June 2019.
