

EXHIBIT B
Two Year Plan

The Company's service quality improvement plan is to continue to upgrade its telecommunications facilities and equipment as necessary to meet customer demand for essential voice communications services and evolving broadband service needs throughout its service area. The Company believes that its planned capital additions will allow for the continued delivery of high quality, reliable voice services and will also extend the reach and speed of its available broadband services. In furtherance of its service quality improvement plan, the Company will use high-cost universal service amounts received by it to offset expenditures incurred relating to the provision, maintenance, and upgrading of supported facilities and services.
