**LTD BROADBAND LLC
PETITION FOR WAIVER**

LTD Broadband LLC (“LTD”), pursuant to Section 1.3 of the Commission’s Rules,¹ hereby respectfully seeks a waiver of Sections 1.21004(c) and (d) of the Commission’s rules² establishing financial penalties and potential disqualification from future competitive bidding by Rural Digital Opportunity Fund (“RDOF”) Phase I auction winners. Concurrently with this petition for waiver, LTD is sending an email to Auction904@fcc.gov notifying the Commission that it no longer intends to pursue support for the census block identified in Exhibit A attached hereto.

Background

On July 26, 2021, Commission staff emailed a letter to Corey Hauer, CEO of LTD, regarding certain census blocks included in the RDOF auction and awarded to LTD, that appear to already be served by one or more service providers offering 25/3 Mbps broadband service or

otherwise “raise concerns about wasteful spending.”³ The Letter recommends that LTD assess whether existing service in those areas would affect LTD’s ability to meet all of the program requirements and deployment milestones. The Letter further states that if LTD no longer wishes to pursue support for such winning bids, LTD could email the Rural Broadband Auctions Task Force and seek to default on the identified census blocks. Finally, the Letter indicates that the Commission would entertain requests for waiver of the typical penalties associated with such defaults and would look favorably on requests demonstrating “good cause” for waiver showing that defaulting on the census blocks would serve the public interest. In light of the Commission’s findings, LTD submits that relinquishment of the affected census blocks would serve the public interest, as such funds could be re-directed to actual unserved areas as part of RDOF Phase II. The census blocks listed in Exhibit A are all of the census blocks identified in the Letter.

Discussion

The Commission may waive a rule for good cause shown.⁴ Waiver is appropriate where the “particular facts would make strict compliance inconsistent with the public interest.”⁵ The Commission may grant a waiver of its rules where the requested relief would not undermine the policy objective of the rule in question, special circumstances warrant a deviation from the general rule, and such deviation will better serve the public interest than strict adherence to the

general rule.⁶ The Commission may take into account considerations of hardship, equity, or more effective implementation of overall policy on an individual basis.⁷

In the *RDOF Report and Order*, the Commission adopted a \$3,000 base forfeiture per violation “subject to adjustment based on our forfeiture guidelines. To determine the final forfeiture amount, the Commission’s Enforcement Bureau will consider the ‘nature, circumstances, extent and gravity of the violations.’”⁸ LTD respectfully requests waiver of Sections 1.21004(c) and (d) such that it is not determined to be in default and if it is determined to be in default, it will not be assessed any monetary forfeiture or be barred from participation in future Commission auctions.

I. GRANT OF THE WAIVER REQUEST WOULD NOT FRUSTRATE THE PURPOSES OF THE RULES

A. Waiver Will Advance, Not Frustrate, Commission Policy Objectives

The Commission adopted Sections 1.21004(c) and (d) “to ensure the integrity of the auction process and to safeguard against costs to the Commission and the USF.”⁹ The Commission also has stated that auction defaults “hinder the disbursement of funds that could have gone to another carrier, and thereby further delay the deployment of broadband service offerings in unserved areas.”¹⁰

These purposes would not be frustrated by their application here. Responsibility for the “integrity of the auction” process falls on more than just the bidder. The Commission relies on information supplied by providers and its own data collection efforts to produce reliable auction

information for bidders. When such information is compromised or incomplete, the result is the inclusion of areas that are already served by a provider or should otherwise not be eligible for funding. Bidders should not be penalized for the reasonable belief that they can rely on the credibility of the auction information.

Relinquishing the funds would advance the Commission's goals of safeguarding costs to the Commission and USF. The census blocks represent millions of dollars in RDOF funding that can be repurposed to fund areas that are actually underserved consistent with the objectives of the RDOF program. Distributing the funds in their intended manner would help "ensure that finite universal service support is awarded in an efficient and cost-effective manner and does not go toward overbuilding areas that already have service."¹¹

Relinquishment of support for the affected areas would not delay deployment of broadband areas in unserved areas. As described in the Letter, the relevant census blocks consist of locations that are already served by one or more service providers that offer 25/3 Mbps broadband service or otherwise raise significant concerns about wasteful spending (e.g., an airport or parking lot with no locations). Consumers should not be required to contribute universal service funds to bring duplicate or unnecessary service to such areas.

B. LTD's Due Diligence Obligations Should Not Require It to Confirm the Validity of Census Blocks Included in the RDOF Auction

LTD understands that pursuant to Section 54.804(a)(8), it certified in its short-form application that it "has performed due diligence concerning its potential participation in the Rural Digital Opportunity Fund."¹² In adopting the foregoing rule, the Commission explained that this "certification will help ensure that each applicant acknowledges and accepts responsibility for its

¹² 47 C.F.R. § 54.804(a)(8).

bids and any forfeitures imposed in the event of default, and that the applicant will not attempt to place responsibility for the consequences of its bidding activity on either the Commission or third parties.”¹³

Consistent with LTD’s obligations pursuant to Section 54.804(a)(8), LTD conducted due diligence before the auction to determine which census block groups (“CBGs”) made economic and engineering sense for LTD to provide RDOF-funded service. That due diligence, however, cannot be construed to require it to confirm the validity of CBGs deemed unserved by the Commission following a challenge process and placed into the RDOF auction. Rather, in the absence of granular mapping, LTD relied on the integrity of the existing process and broadband providers’ obligations to report accurate information on the FCC Form 477. LTD should not be penalized for relying on such information.

II. GRANT OF THE WAIVER WOULD BE CONSISTENT WITH THE PUBLIC INTEREST

Grant of the waiver is in the public interest because it will re-direct RDOF funds away from areas that should not be eligible for support, and preserve those funds for future support programs such as RDOF Phase II. Subject to relinquishment, the Commission will have additional funds to include in RDOF Phase II, which can and should be made available for truly unserved areas. Ultimately, LTD’s relinquishment of the census blocks listed in Exhibit A will save taxpayer funds and Commission resources from being expended on unnecessary construction and duplication of existing broadband services.

Conclusion

In light of the foregoing, LTD respectfully requests waiver of Sections 1.21004(c) and (d) so that it is not found to be in default or, alternatively, if it is found to be in default, LTD should

not be required to make any forfeiture payment and should not be barred from future participation in Commission auctions.
