1-1. The USAC High Cost Disbursement Search tool lists [REDACTED]

Response: [REDACTED]

1-2. Explain why the AXOS Management Platform upgrade was moved from 2020 to 2022.

Response: AXOS Management Platform is used in the Calix E7 Platform. We have not scheduled the upgrade process from the C7 platform to the E7 platform yet. The COVID19 pandemic was a factor in the delay.

1-3. What percentage of Cheyenne River Sioux Tribe Telephone Authority's customers will be fiber to the home at the end of 2021?

Response: Cheyenne River Sioux Tribe Telephone Authority has been 100% fiber deployed throughout its study area since 2016. Any new locations are hooked up to fiber upon customer request.
