Management Biographies

Shane Miller

A passionate Entrepreneur and Business Development expert focused on Leadership, Corporate Development and Strategic Planning. One of my strengths is in developing profitable new lines of business centered on recurring revenue associated with technology. I am highly skilled with developing corporate strategic direction and providing leadership to mid-level managers. I am very visionary and "big picture" oriented often finding opportunities in many different areas. My passion is in creating, developing and streamlining new and existing Technology Related Businesses. I have owned a total of 5 Internet Service Providers and currently own four, and four of the five I have started from ground up.

- Owner and Partner – Celerity Networks LLC, Celerity Broadband LLC, TREPIC Networks LLC and Arizona Network LLC.
 - As a partner and one of the founding members of these 4 companies I am actively involved in new business development, financial planning, marketing and strategic planning. In all 4 companies we provide outstanding Internet Service in areas where we can provide value which includes quality service at fair prices. The combined companies provide Internet Service to areas in South Dakota, Wyoming and Arizona. Our connectivity and network is second to none and my With the business and technical expertise and a passion for technology we will be number one in the markets we serve.
- Chief Operating Officer of Collins Communications responsible for all normal CEO responsibilities including Corporate Development, Strategic Planning, Financial Planning and new product and service development. Some of my major accomplishments were the creation of new products and services that have grew recurring revenue streams for the company by over 400%. During my tenure at Collins Communications I was able to improve and streamline operations by developing and implementing policies, procedures and workflows. In addition to these process improvements I took a major role in successfully growing gross revenues by over 300%.

Jesse DuPont

An accomplished data networking professional who's been involved in Information Technology for over 25 years. Not only do I have the ability to deeply understand how something works, but I can also explain it plainly to non-technical people in a helpful way. With a long-time focus on carrier-class networking, I have a high-degree of proficiency in various transport mechanisms, including TDM and packet-based, electrical and optical networks, as well as RF/microwave networks. With a focus on scalability and reliability, I have designed, built and maintained many networks using equipment from various mainstream vendors. I also have a solid understanding of PSTN operations, call routing and signaling. In addition to owning/operating Celerity Networks

LLC and Celerity Broadband LLC, I have been with Gallatin Wireless Internet or its parent company in various capacities since 2006, including video headend, carrier networking, corporate IT and fixed wireless operations and some PSTN new market expansion.

- Owner and Operator – Celerity Networks LLC and Celerity Broadband LLC
 - As an owner and operator of Celerity Networks LLC and Celerity Broadband LLC I provide design, deployment and OAM services for a reliable, scalable fixed-wireless network that provides rural consumers with high-quality, high-speed Internet service. I am also lead engineer in various consultant roles, including Fiber to the Premise networks.
- General Manager – Gallatin Wireless Internet LLC – Gallatin Wireless Internet LLC is an ISP in Montana with approximately 6400 customers. It is also an ETC in the state of Montana. I steer the daily operations of the company and provide strategic direction for the company.
- Information Services Administrator – Power River Energy Corporation - Responsible for the reliability and performance of the corporate networks. This included availability and security of systems. Systems included LAN, leased and microwave wireless WAN, routing, and Internet access. I had five employees.
