DOCKET: TC22-010 8YY Reductions

Dear Ms. Van Gerpen:

In reference to Docket No. TC2022-010 and per the request of Utility Analyst Brittany Mehlhaff, CenturyLink is clarifying the change to the End Office Shared Port Originating 8YY rate. It was discovered when preparing the Step 2 8YY access reductions that the End Office Shared Port Originating 8YY rate has been billing at \$0.00 since July 1, 2021. The rate should have been stepped down over the three year 8YY plan instead of going to zero in Year 1. CenturyLink decided to leave the rate at zero since demand is extremely small and CenturyLink did not want to confuse the customers with a rate correction. This filing for 2022 will sync up billing and the tariff for the End Office Shared Port Originating 8YY rate.

If you have any questions regarding this filing, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Christina L. Chushuk".
