RE: Docket TC22-045

Dear Mr. Elcock:

This letter is a follow-up to the discussion we had during the August 18th commission meeting regarding unserved or partially served census blocks west of Sturgis and adjacent to existing Clarity service.

The census blocks which are repeatedly brought to my attention by residents are 460819661002147 and 2148. I know your company has investigated serving these areas and found them to be very high cost.

As new funding with higher grant share is becoming available from the federal government and perhaps state government, I would encourage you to take a second look at these areas to see if there are possibilities now available to make this financially viable.

The folks in these areas would be most grateful.

Thank you!

Sincerely,

Chris Nelson
