

## **15. Metering and Monitoring**

15.1. Metering: If the Interconnection Customer intends to sell power to the Public Utility, the Interconnection Customer is responsible for the cost of the purchase, installation, operation, maintenance, testing, repair, and replacement of any ~~special~~ metering and data acquisition equipment deemed necessary by the terms of the (separate) Power Purchase Agreement. ~~except that Tier 1 customers may use existing metering equipment unless the Public Utility elects to install metering equipment at its expense.~~ The Public Utility must install, maintain and operate the metering equipment. Parties must be granted unrestricted access to such equipment as may be necessary for the purposes of conducting routine business.
