CHAIRMAN SAHR: TC03-191, In the matter of the filing by WWC License, LLC doing business as CellularOne for designation as an eligible telecommunications carrier in other rural areas.

And the question today is shall the Commission grant the petition of WWC License, LLC doing business as CellularOne for reconsideration and clarification?

The first thing I'd like to see is if any of the Commissioners or advisers have any additional questions or comments to be made as far as the case is concerned.

VICE CHAIR HANSON: No.

COMMISSIONER BURG: I don't either.

CHAIRMAN SAHR: Seeing no additional comments, I do have a Motion. And I do want to say that I think the Commission came up with an order that made sense and that I think enables us to have pertinent information necessary to properly evaluate whether or not ETC obligations are being met.

With that being said, though, clearly this is a case of first impression as far as a wireless carrier is concerned in the State of South Dakota

_ _

and something where I think we can freely acknowledge that in an effort to make sure we have accurate information available to staff and Commissioners to make those sort of evaluations that there may need to be some modifications made to the Order.

With that in mind, I have a Motion, and it's a little bit lengthy. I'm just going to ahead and read it now. I move that we modify Condition 3 to state that Western Wireless does not need to provide capital expenditures or its capital budget for each RLEC service area but that Western Wireless does need to provide material capital expenditures information statewide with the location and cost listed for the material capital expenditures. Western Wireless shall work with staff to determine what constitutes material.

I further move that we modify Condition 8 to state that Western Wireless's report regarding unfulfilled requests does not need to include potential customers but must include customers who are actual customers of Western Wireless or, in other words, customers who signed up for service, including customers who subsequently cancelled their service. This information does not need to

be provided on an RLEC service area basis.

I would further like to state that I do not believe that this information will provide a complete or accurate picture of the number of unfulfilled requests for services, but it will provide the Commission with some additional information, including how well the Western Wireless's five-step process to provide service is working.

The Commission extensively communicates with the South Dakota public regarding cell phone service and, in fact, now receives information that allows us to reasonably judge the nature and location of service requests perhaps better than any standard we can impose on WWC so the need for WWC's information does not appear to be critical for performance of our duties.

I further move that the Commission find that
Western Wireless's request for confidentiality
language is unnecessary and inconsistent with our
rules. When Western Wireless files the information
it may request confidentiality under our existing
rules.

Finally, I further move that the Commission add staff's proposed Condition 9 to the Order.

1 VICE CHAIR HANSON: Second.

COMMISSIONER BURG: I concur. First

of all, I guess I'd ask would somebody remind me

what Condition 9 was?

CHAIRMAN SAHR: That was

John Smith's proposed condition, and, John, I'll

let you take that one.

MR. SMITH: Commissioner Burg, what the purpose of 9 was, was to give us flexibility in the future to request additional information if we find it necessary and then to come before the Commission and request a modification of the conditions if staff deems it necessary to get the information we need to make sure things are going like they're supposed to.

COMMISSIONER BURG: Okay. I'm going to concur. I think that what we're doing here is sort of tweaking the decision that we made that I think is a decision that's going to be beneficial to South Dakota consumers.

I felt it was -- as you well know from the hearing, I felt it was very important that we know that the moneys that are collected under an ETC status be used in the areas that made them eligible to become an ETC. And I think the information we

have will accomplish that without actually going to the effort to break it down by an RLEC area because sometimes that's pretty hard to determine. I think we can determine if we get the proper information on the investment and the location of the expenditure as to whether it was an area that provided that they be eligible for ETC status.

The rest of it I think just kind of cleans up the language on how we're going to address, and I think that's a good move so I concur.

CHAIRMAN SAHR: Thank you. And, again, I look at it as a process that is in place to make sure that staff and Western Wireless can communicate going forward and make sure those obligations are being met and do so in an effective and sensible manner. So I think the changes made today make a lot of sense.
