Xcel proposes a January 1, 2018, effective date. Xcel states the average bill impact for a residential customer using 750 kWh per month will be increased to \$4.03 per month compared to the current average residential bill impact of \$4.00 per month under the current rate.

On October 5, 2017, the Commission electronically transmitted notice of the filing and the intervention deadline of October 20, 2017, to interested persons and entities on the Commission's PUC Weekly Filings electronic listserv.
