On May 30, 2018, Prevailing Wind Park, LLC filed with the South Dakota Public Utilities Commission (Commission) an application for a wind energy facility permit (Application) to construct the Prevailing Wind Park (Project), a 219.6-megawatt nameplate capacity wind energy facility located in Bon Homme, Charles Mix, and Hutchinson counties. The Project Area is comprised of 50,364 acres of private land between the towns of Avon, Tripp, and Wagner. The proposed Project includes 61 wind turbines, associated access roads, an underground electrical power collector system and collector substation, four permanent meteorological towers, an operations and maintenance (O&M) facility, and temporary construction areas, including crane paths, public road improvements, a laydown yard, and a concrete batch plant(s) (as needed). The Project would interconnect at Western Area Power Administration's (WAPA's) existing Utica Junction Substation, located approximately 27 miles east of the Project. The Commission has jurisdiction over this matter pursuant to SDCL Chapters 1-26 and 49-41B and ARSD Chapter 20:10:22.

The Application and all other documents in the case, including detailed maps of the Project, may be accessed on the Commission's web site at www.puc.sd.gov under Commission Actions, Commission Dockets, Electric Dockets, 2018 Electric Dockets, EL18-026 or by contacting the Commission in person at the Capitol Building, 500 E.
