On July 28, 2009, Basin Electric Power Cooperative, Inc. (Basin) filed a siting permit application with the Public Utilities Commission (Commission) for the Deer Creek energy conversion facility (EL09-015) and a natural gas pipeline to support the Deer Creek facility. Basin is proposing to construct, own, and operate a natural gas pipeline to support a proposed 300-megawatt combined-cycle natural gas energy conversion facility called the Deer Creek Station. The proposed 13.2 mile pipeline route will traverse about 18 sections of land located in Brookings and Deuel counties. The proposed pipeline diameter is 10.75 inches with an operating pressure ranging between 475 – 1,435 pounds per square inch gauge (psig). Construction is proposed to begin in July 2010 with start up in June 2012.

On July 30, 2009, the Commission electronically transmitted notice of the filing and the intervention deadline of September 28, 2009, to interested individuals and entities.

On August 11, 2009, at its regularly scheduled meeting, the Commission, pursuant to SDCL 49-41B-12, unanimously voted to assess Basin a filing fee not to exceed \$30,000, with an initial deposit of \$8,000, the minimum fee allowed by law as requested by the Deputy Executive Director.

On August 21, 2009, the Commission received a Motion for Extension of Notice, Public Hearing Time Frame and Application for Party Status from Basin.
