On January 30, 2007, Brookings Municipal Utilities d/b/a Swiftel Communications (Swiftel) filed with the Public Utilities Commission (Commission) a Petition for Suspension or Modification of Local Dialing Parity, Number Portability and Reciprocal Compensation Obligations. In its Petition, Swiftel states that it requests the Commission grant a suspension or modification of 47 U.S.C. Sections 251(b)(2), (3) and (5) of the Communications Act of 1934, as amended. "Swiftel requests modification of the local number portability requirement such that it is not required to implement wireline local number portability until 4 months after a competitive LEC is certificated to provide service in Swiftel's service territory. Swiftel also requests modification of the local number portability requirement such that Swiftel is not required to transport numbers beyond its service territory. Swiftel requests modification of the dialing parity requirement such that Swiftel is not required to provide local dialing and it is not required to transport traffic outside of its service territory. Swiftel also requests modification of the toll dialing parity requirement such that Swiftel is not required to perform the equal access function at the end office or establish access traffic transport facilities other than the common trunks to South Dakota Network (SDN). Swiftel also asks the Commission to modify any requirement that Swiftel would not be able to collect access charges for toll traffic. Swiftel requests a modification of the reciprocal compensation requirements such that it is not required to pay reciprocal compensation on traffic terminating to a wireless carrier within the MTA that is handed off to an IXC in accordance with Swiftel's wireline local calling areas. Swiftel also requests immediate temporary suspension of the 251(b)(2), (3) and (5) requirements as described [in its Petition] pending this Commission's consideration of this request."
