TC06-176

On October 16, 2006, Sprint Communications Company L.P. (Sprint) filed a petition to arbitrate, pursuant to SDCL 49-31-81 and ARSD 20:10:32:29-32, and Section 252(b) of the Communications Act of 1934, as amended by the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996), certain terms and conditions of a proposed Interconnection Agreement between Sprint and Brookings Municipal Utilities d/b/a Swiftel Communications (Swiftel). Sprint filed a list of unresolved issues consisting of: (1) Should the definition of End User in this Agreement include end users of a service provider for which Sprint provides interconnection, telecommunications services or other telephone exchange services? (2) Does the Telecommunications Act authorize the Commission to arbitrate terms and conditions for interconnection obtained under Section 251(a) of the Telecommunications Act? If yes, what terms and conditions should the Commission impose on the parties in this proceeding? (3) Should the Interconnection Agreement permit the parties to combine wireless and wireline traffic on interconnection trunks? (4) Should the Interconnection Agreement permit the parties to combine all traffic subject to reciprocal compensation charges and traffic subject to access charges onto the interconnection trunks? (5) What is the appropriate reciprocal compensation rate for the termination of telecommunications traffic? (6) Should Sprint's proposed language regarding Local Number Portability be adopted and incorporated into the Interconnection Agreement? (7) Should the ILEC-proposed Directory Listing provisions, as modified by Sprint, be adopted and incorporated into the Interconnection Agreement? (8) Termination: A) Should the termination provision of the Interconnection Agreement permit the existing Interconnection Agreement to remain in effect while the parties are in the process of negotiating and/or arbitrating a replacement Interconnection Agreement? B) Should the Interconnection Agreement contain provisions that allow the parties to terminate the Agreement for: 1) a material breach; 2) if either party's authority to provide service is revoked or terminated; or, 3) if either party becomes insolvent or files for bankruptcy? (9) What 911 liability terms should be included in the Interconnection Agreement? (10) What Force Majeure terms should be included in the Interconnection Agreement? Sprint respectfully requests the Commission to arbitrate each of the remaining disputes between Sprint and Swiftel, to find in Sprint's favor and to adopt Sprint's proposed contract language. In accordance with ARSD 20:10:32:30, a non-petitioning party may respond to the petition for arbitration and provide additional information within 25 days after the Commission receives the petition.

On October 19, 2006, the Commission electronically transmitted notice of the filing and the intervention deadline of November 10, 2006, to interested individuals and entities.
