South Dakota Public Utilities Commission

Mission Statement:

The South Dakota Public Utilities Commission will serve and protect South Dakota's consumers by ensuring safe, reliable and high quality utility services. The commission will exercise its authority and influence to ensure that residential and business consumers have access to utility services at fair and reasonable rates. The commission will be proactive and solutions-oriented in striving to maximize consumer utility value and education while working to enhance the economic and environmental well-being for citizens of South Dakota.

2011 Summary:

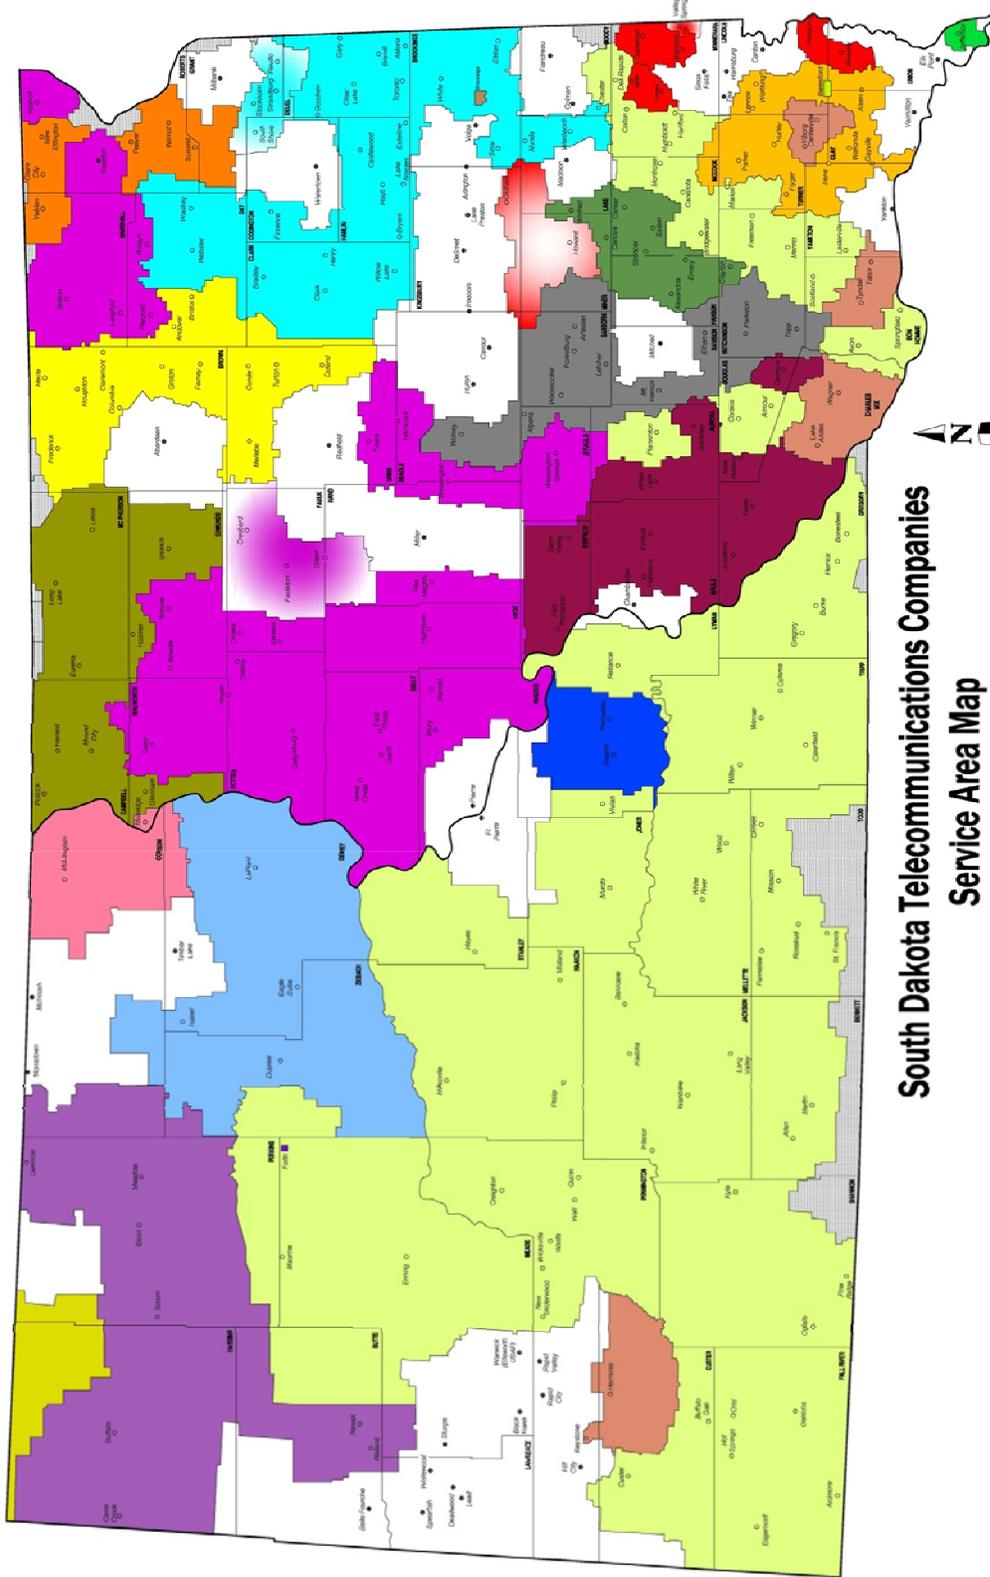

The commission has territory, complaint and quality of service authority regarding all telecommunications companies operating within South Dakota. The commission retains its switched access rate making authority for all telecommunications companies providing local service, including small, independent and cooperative companies.

In 2011, 101 telecommunications dockets were filed with the commission. In addition to these dockets, the commission received 95 informational filings. No formal complaint dockets were filed.

The commission's Consumer Affairs staff assisted consumers with 602 telecommunications issues and 502 various wireless concerns.

Lifeline and Link-Up and Enhanced Lifeline and Enhanced Link-Up programs provide qualifying South Dakotans access to affordable telephone service. In 2011, South Dakota telecommunications companies reported a total of 9,044 Lifeline customers and 1,787 Enhanced Lifeline customers. More information on Lifeline and Enhanced Lifeline trends can be found on page 8.

Forty-six companies are designated as Eligible Telecommunications Carriers (ETCs) by the commission. Additionally, one telecommunications carrier is designated as an ETC by the Federal Communications Commission. These telecommunication companies are eligible to receive High Cost Support from the Federal Universal Service Fund administered through the Universal Service Administrative Company (USAC). In 2011, USAC distributed more than \$64 million to these South Dakota companies, which was a significant decrease from the approximately \$90 million in 2010. More information on the USAC distribution trends can be found on page 12.
